

The most qualified precision machining supplier of OEM products for the

Aerospace, Automotive, Medical, Optical, Hydraulic, Pneumatic, Computer and other High-end industries

We offer parts made from:

- Bar stock • Castings (die, gravity, sand and investment)
- Extrusions • Forgings (cold, warm and hot)
- Fine blanking • Powder metals (compact and warm)
- Metal Injection Molding (MIM)
- Stampings

Samples of our precision machined (turned and milled) extrusion, casting and forging parts.

Fully-integrated single source manufacturer

AMI Industries, Inc., is AS9100 Rev C, ISO 9001:2008, ISO/TS16949:2009 and ISO 13485:2003 certified and is a fully integrated single source manufacturing supplier of OEM precision machined products. For more details about our capabilities, customer base, markets, products supplied, facilities, machines, and equipment, please visit our website: www.amiinc.com.tw.

Our parent company, Precision Engineered Products (established 1980), is the only Taiwan supplier qualified to manufacture and source finished machined investment castings for fuel systems used in Airbus A320, A330, A340 and A380 and Boeing 777 and 787 programs.

AMI manufacturing services include:

- (1) Participation in customer confidential Early Stage Development Program
- (2) Precision machining (CNC turning & milling, broaching, grinding, hobbing, honing and lapping)
- (3) Post machining operations, including anodizing, coating, heat treating, plating, shot peening, and
- (4) Assembly and testing

All materials used are checked and verified against customer specifications and results recorded to ensure required traceability.

AMI Focus/Goal, through TQM, continuous improvement, latest CNC machining technologies, state of the art tooling, skilled operators and dedicated staff is 100% customer satisfaction with competitively priced quality products delivered on-time.
