Source from a one-stop
security solutions provider

200 models to choose from
We provide one-stop solutions to your security needs. Our catalog boasts 200 models, including DVRs, monitors and other related items, as well as IP, IR day/night, waterproof, dual CCD, PTZ and box cameras. In addition to developing three new products monthly, our 45 R&D engineers can create custom samples within two weeks.

Two-year guarantees for every camera
We never compromise on quality. That's why our five inspectors subject our cameras to a strict five-step QC regimen, using frequency and age testing machines, as well as signal generators. As such, we can confidently back our CE-, FCC- and RoHS-marked devices with two-year warranties.

Value-added services
In the event that you find defective units in your order, we offer technical support and provide replacements up to three months after your purchase. To start reaping the benefits that we offer, speak to our sales staff in English, Spanish, Portuguese, German or French today.
