

SAMA power supply unit

- 110V RoHS Directive-compliant APFC chip
- 80 PLUS certification
- 14cm high-quality, extra-silent cooling fan for excellent ventilation

# We offer up to 1,000W power supplies

## 80 PLUS certifications available with our devices

A professional power supply manufacturer, we have R&D specialists who keep a tab on the latest market trends. Using the information they've collected, they create models with up to 1,000W of power and 14cm cooling fans for better heat dissipation. Our power supplies have 80 PLUS certifications, meaning they meet your market's requirements for energy efficiency. In addition to PSUs, we also offer cases suitable for most computer models on the market.

We believe that our products are only as good as the components that go into them. That's why our purchasing team relentlessly shops through both local and overseas markets for quality parts, including RoHS Directive-compliant chips, for guaranteed reliability. For power supplies that you can distribute with ease, call us today.

Mid tower computer cases

- HDD cooler systems
- Intel TAC 2.0 radiating standard
- New structures
- Match 295mm-long display cards
