

Source ultra-slim customized power banks

The smart choice for ultra-slim power banks

Ultra-slim 3,800mAh power bank

Dual USB ultra-slim 8,000mAh power bank

4,000mAh smart power banks

LVSUN is a high-tech enterprise that focuses on innovation, quality and customer service. We are a leading manufacturer of ultra-slim and customized power banks. All of our items are produced in our four production facilities in Shenzhen, which occupy more than 20,000m². With such resources at our disposal, we are able to source raw materials and expand our product selection and services at minimal cost. These savings are then passed on to you.

To ensure the quality of our items, all stages of production are monitored by our 120 QC inspectors, and our ISO 9001:2008-certified factories house advanced testing equipment including a six- to eight-hour ageing machine. What's more, all of our products are lead-free, and are WEEE- and RoHS Directive-compliant.

With over 12 years' experience behind us, we've assembled a team of first-class R&D engineers, and have gained hundreds of patents in both mainland China and around the world. Every day, buyers worldwide discover that we are the smart choice for electronic devices. To learn more, visit our online showroom today.
