

Our volume production capacity ensures shipping within 10 days

What do a 2,000m² production facility, four production lines, 20 partner factories and 200 skilled workers mean for you? This translates into faster production and delivery times. By capitalizing on all of these resources, we're able to manufacture up to 100,000 fashion accessories a month – enabling us to ship 10,000 units in 10 days or less. Additionally, we produce some raw materials in-house for cost savings that we pass on to you.

Choose from a wide selection of coin purses, necklaces, earrings, rings, bracelets, brooches and scarves, as well as synthetic leather belts made of PU and PVC, belts made of genuine tanned cowhide or water buffalo leather, and other accessories. We are especially skilled at producing silicone bracelets and provide silkscreen and water transfer printing services. With such excellent service, our products have even been sought out by Disney.

Our 20 designers have 10 years' experience – expertise they utilize to create up to 210 new

products per month. They often travel to France and Italy for design inspirations. We welcome your custom ideas, and samples can be finished within three days – that's up to seven days faster than the industry average. SGS inspections are welcome. Inquire now.
