

Offering quality products under our Ucontrol and NAL brands

Our Ucontrol brand, created in 2009, is dedicated to providing highly functional door operator solutions. Items under this brand feature photoelectric protection, intelligent obstacle detection and fixed or rolling code remote controls with ASK or FSK modulation. What's more, we also offer frequency-hopping models with rolling codes. Raw materials and components are sourced from Texas Instruments and Fairchild to ensure the quality of our products.

We also created the NAL (NewAutoLine) brand of automotive electronic parts, which covers power window switches, car seat and window lift control modules, tire pressure sensors and more. Work with us to get energy-efficient and cost-effective products and enjoy excellent aftersales service. Call us now.

Remote control works with the following brands:

- Doorhan/Skymaster/Foresee
- Beninca
- Motorline
- Genius Casali 433RA A252
