Make us your total solution for Full-HD surveillance – many clients from around the world already do. We are a professional CCTV products manufacturer with many international approvals.

Come to us for these HD products:

- Network solutions: NVRs, IP cameras and NVDs
- HD CCTV solutions: cameras, DVRs and compression cards

Our HD network surveillance solution, featured here, provides clearer, more detailed surveillance. Powerful network integration makes searching for videos easier and is particularly useful in

investigations. And our HD CCTV solutions adopt the HD-SDI broadcast standard to send uncompressed videos over coaxial cables and thus allow no-latency real-time transmissions and improved image quality.

Having a strong R&D team is essential for us to continue to be innovators in our industry. That's why our team is staffed by 1,000 engineers. To ensure we have adequate research funds, we reinvest 10 percent of our sales income back into R&D annually. This allows us to create new embedded structure applications, and AV encoding and decoding algorithms, as well as new network protocols. Inquire now.
