

Various headbands

## Source products backed by over 15 years of manufacturing experience

With a keen eye for style, our 10 designers – who were trained in the UK and France – develop 100 new items monthly. These include trendy headbands, hair clips, necklaces, earrings, rings, bracelets and other fashion accessories that you can add to your collection. Equipped with a molding workshop, we can customize items based on your OEM specifications and have samples completed in 30 days. As to our products' appeal – our client list speaks for itself; Disney, L'Oréal, Avon, Walmart, Nivea, Lancôme, Maybelline and P&G buy from us.

We leave no room for quality compromises – that's why we have 30 inspectors to oversee all stages of production. And for your peace of mind, our items can be tested by SGS upon request. What's more, we've also passed social audits by Disney, Sedex and Intertek. To benefit from our R&D strength, inquire today.

Hair clips
