An expert in total LED lighting solutions for automobiles

5 new molds monthly from a 20-member design team

Since 2002, we have been designing and manufacturing complete LED lighting solutions for a wide assortment of automobiles. Focusing on just one area of expertise has allowed us to streamline our factory, which cranks out up to 5,000 LED taillight assemblies monthly on fully automated machinery.

With us, the customization process is as convenient as it is progressive thanks to our 20-member design team – you'll have up to five new molds to select from every month. They're designed based on up-to-date market analysis. Choose to work with one of these models, which are added on top of our 20 series of products, or send in your sketch and we'll start a collaborative effort from there.

As part of Zhejiang NAC Group, which was founded in 1975, we are well-versed in providing thorough trade services. Punctual deliveries from our partner suppliers and strong aftersales support are always ensured with us. To learn more about our CE- and E-Mark-approved products, give us a call today.

LED daytime running light for Audi Q5 (all models)

LED headlight assembly for Chevrolet Cruze (2008-2013 models)

Trailer light, available in different specifications
