

2.4GHz wireless keyboard
and mouse set

15 years' experience designing and producing keyboards and mice

Having designed and produced PC peripherals for 15 years, we have the expertise to handle even your most complex OEM/ODM projects. Our 80 R&D engineers, each with at least 10 years of experience, can create custom samples for you in under seven days. That's on top of developing five to 10 new items each month. At our two factories spanning 655,000m², we manage both our own molding workshop and production lines that turn out 250,000 keyboards and 300,000 mice monthly. Contact us today.
