

We produce baby appliances for markets in the US and Europe

We manufacture breast pumps, baby bottle warmers and sterilizers, as well as food processors and other small appliances for markets in the US and Europe. All of our products are made from food-grade raw materials that comply with the RoHS Directive and are CE-marked, making them ready for export. Each month we produce up to 80,000 products at our 6,500m² factory. Our six-member engineering team releases as many as two new products every month. We also offer one-year warranties on our items. To learn more, contact us today.
