Various types of LED tubes, downlights, panel lights, floodlights and other commercial lighting

OEM and ODM samples in 10 days or less

Six new products monthly

Featuring a hefty collection of lighting products, our catalog includes various types of LED tubes, downlights, panel lights, floodlights and other commercial lighting. This large selection is the result of the hard work of our 30 R&D engineers who have at least six years of experience each. Every month, they add up to six new products, while also completing OEM and ODM samples for our clients in 10 days or less.

Quality you'll value

As for our QC process, we conduct raw material, production and pre-shipment inspections, as well as put our lights through anti-pressure and salt-spray tests. On top of that, we perform current leakage tests to weed out items that don't meet our quality standards.

Up to 150,000 units monthly

With seven production lines, we make up to 150,000 units monthly – all of which are CE- and RoHS-marked. Our minimum order requirement is 10 units, and our lead times are as fast as five days. For more information, inquire now.

LED downlight

- 3.5, 4, 5, 6 and 8" varieties available
- 100 lumen/W • CRI >80
