

# OEM supplier for more than 50 brands

Metal sunglasses with rhinestone-decorated PC temples

## Nearly 100 new designs monthly

Does it seem like a new design of sunglasses hits the market every day? We know it's difficult to keep up, so let us do the work. Our R&D team produces 80 to 100 new styles each month. For over 15 years, customers have been coming to us for our custom sunglasses with nylon pouches or hard cases. We export to buyers like you in more than 30 countries and regions, including Europe, Asia, the US and South America. In fact, we're the OEM supplier for more than 50 brands.

## Samples in 7 days

We can also add your logo to our products. And our 30 R&D staff members will provide samples with packaging in just seven days. UV 400 lenses and nickel-free plating ensure that every part of your sunglasses is well-made. And CE, FDA and EN 1836:2005 approvals allow easy market entry. Plus, we reinvest \$70,000 into our QC procedures each year.

## 65,000 units per day

Every 15 days, we send long-term clients a sample of our latest styles – you can become a long-term client too. With a daily capacity of 65,000 pairs, we are ready for your volume orders.

## Get in touch with us

It's time that you experience for yourself what makes us such a successful worldwide exporter of sunglasses. Visit our Global Sources Online showroom today to learn more.

Sunglasses made of metal and PC
