# Greater home and business security with our plug-and-play network DVRs and IP cameras

## Your one-stop source in mainland China

### Wide range of products

Founded in 2005, DIT is a subsidiary of China Security & Surveillance Technology, Inc. (CSST), which is one of the top exporters of security products in mainland China. Our expanding range of products includes DVR kits, IP cameras, and other surveillance kits. These are used to secure homes, as well as for mainland China government projects that include monitoring traffic and other police uses. Plug-and-play compatibility and simple instructions allow for quick, DIY-friendly installation.

### Rapid expansion

Ever since DIT was acquired by CSST, our production capacity has grown significantly. We now have six buildings and 80,000m<sup>2</sup> of factory space. To keep up with the latest market trends, our R&D capability has also improved — we were one of the first to integrate IP camera, DVR kit and digital wireless kit into a single server to make remote monitoring easier.

### Trusted by world's top retailers

We supply many famous retailers worldwide such as B&Q, Argos, Macro, Costco, Maplin and Sam's Club. If you want to grow your business by selling popular and effective security products, contact us today.

Plug-and-play 720P IP cameras (N6714HH/N7504HH/N8052HH)

- 1/4" CMOS sensor
