

All-in-one PC with  
HD LCD touch screen

## All-in-one PCs from industry experts

Our R&D engineers have worked for major electronics manufacturers, including TCL and Hasee, so they have the experience required to develop three new all-in-one PCs, PC TVs and tablet PCs monthly. And we support their work by investing \$600,000 in R&D endeavors every year. Each month, we produce up to 10,000 units – 85 percent of which are exported to Europe, the US, the Middle East and Africa. Our products come bearing CE, RoHS, FCC and CCC marks. And thanks to the work of our QC team, we boast a return rate under 0.2 percent. Inquire today.
