

Drive sales in your market with our fully tested vehicles

Our products undergo 500-hour engine and 15,000km road tests

- 1,000cc UTV (HS1000UTV Sport)
- 4-stroke liquid-cooled V-twin cylinder, 8-valve EFI engine
 - 50kW (68hp)/7,000 rpm max. power; 27.5L fuel capacity
 - CVT transmission with axle drive train; 2/4WD
 - 2,160mm wheelbase and 325mm ground clearance

Great for all types of terrain

If you're in the market for sports and recreational vehicles that will propel sales for you, then source from us. Our utility vehicles, ATVs and motorcycles are subjected to 500-hour engine tests. And unlike competing models, which undergo road tests for only 6,000 kilometers, our new releases are tested for a total of 15,000 kilometers. We not only check each part using exhaust emission analyzers from Japan, but we also put our vehicles through a 5- to 10-kilometer test drive on rugged terrain, as well as on paved roads.

Large production capacity

As a conglomerate with nine subsidiaries, we have

the resources to fill your large-volume orders. At our facilities, more than 2,500 employees help us provide an annual capacity of 500,000 ATVs and UTVs, 1 million motorcycles, 1.5 million engines and related key body parts, and 1.5 million chassis, fuel tanks, plastic injection-molded parts and painted parts. Plus, our products boast numerous domestic and international certifications, including COP, E13, ISO 9001:2008, TÜV, Bureau Veritas, EPA, US DOT, EEC, CE and CCC.

Popular overseas

Our vehicles are driven on the streets and off roads in the USA. To introduce our goods to your market and put your order into gear, contact us today.
