- Charges various smartphones and portable devices via the USB port
- 21.7 x 86mm

External battery for Apple's iPhone and iPod (Booster, BT-PR-0A)

- Low self-consumption, less than 50uA
- Capacity: 1,000mAh
- Li-polymer battery
- 58 x 48.5 x 9.4mm

There's a reason big buyers such as Best Buy, Ikea, Bosch and LG source our power supplies. We produce some of the most advanced power banks available for Apple's iPhone and iPod devices, RIM's BlackBerry, HTC mobile phones and other devices. While many leading competitors' power banks have 1,700mAh capacities, ours have capacities as high as 7,800mAh. We are one of the few mobile backup battery manufacturers in mainland China to develop power banks with such capacities.

Our monthly production capacity is 300,000 pieces. We carry out all standard industry testing on our products, and all of our items are CE-, FCC-, UL-, TÜV- and SGS-marked. Contact us today to find out more about one of the strongest portable power supplies on the market.
