

The most qualified supplier of OEM parts

Aerospace, automotive, medical, hydraulic, pneumatic, computer and other industry solutions

We offer:

- Precision machined parts
- Gravity-, sand-, die- and investment-cast parts
- Forged parts
- Stamped and fine-blanked parts
- Metal-injection molded and powder metal parts
- Various heat and surface treatments

Precision cast and machined parts
• For Boeing 777 and Airbus A320, A330, A340 and A380 airplanes
• Automotive engine parts also available

A sample of our precision machined (turned and milled), cast and forged parts

of engineering and production – ensuring the metallurgical consistency and overall quality of our products.

R&D, prototype development and more

We can provide R&D, tooling and gauging, jig and fixture design, prototype development services and more. Numerous companies in the aerospace, medical, automotive, optical, hydraulic, pneumatic, computer and other industries already number among our clients. To join them, contact us today.

More than three decades of experience

PEP was founded in 1980 and has evolved into a leading manufacturer of OEM/ODM precision parts. We've gained recognition by way of being Taiwan's only qualified supplier of aerospace fuel-system investment castings for Airbus and Boeing airplanes, such as the Airbus A320, A330, A340 and A380, and the Boeing 777 and 787.

Efficient TQM and SPC systems

All of our parts are made in our AS9100-, ISO 9001:2000- and ISO/TS 16949:2002-certified factories in Taiwan. We use top-of-the-line aluminum, zinc, magnesium and steel materials from Europe, the US, Japan and other sources. And we rely on total quality management (TQM) and statistical process control (SPC) systems during all stages
