High-power white and RGB color-mixing functions

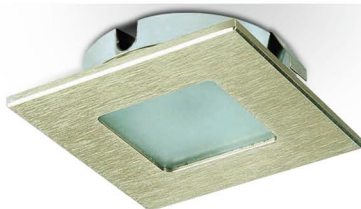

Our Xplendid-series LED lights, such as the downlight featured here, can be installed in almost any interior space, including in cabinets, shelves, drawers, wardrobes and recessed areas, on ceilings and columns, and more. Xplendid lights all have high-power LED white and color-blending functions to create just the right ambience for your customers. And they're sure to be enchanted by the simple and elegant forms of these products.

Integrating recent trends from Europe

We have our own factories both in Taiwan and mainland China, where we integrate recent trends from Europe to bring you the latest designs. Our product range encompasses over 6,000 items, and also includes furniture handles, knobs, legs, castors, locks, fasteners and more. All of our products can be customized according to your specifications.

Region-specific customer service

Our distribution network includes partners in Australia, Europe, the US, Japan and South Korea – meaning we can provide region-specific language support. Plus, in 2001, we set up a branch office in Dubai to serve customers in the Middle East more effectively. To learn more, e-mail us today.
