

Double injection molding process

- Specializing in injection molds
- Our operations comply with ISO 9001, ISO/TS 16949, ISO 14001 and ISO 13485 standards

20 Years' Experience in Plastic Mold Design and Injection Molding Projects

- Integrated engineering services; from device concept to production
- We build 70 sets of molds per month
- In-house R&D for industrial, mechanical and electronics design
- More than 75 precision mold making machines at our plant
- Long track record serving the industrial, medical and automotive industries
- Our Topwell brand stands for offering you cost-effective, reliable products
- Complete product design services including mechanical, electronic and packaging
- Offering electronic systems design, prototyping, assembly and production
