

UL-listed LED panel lights

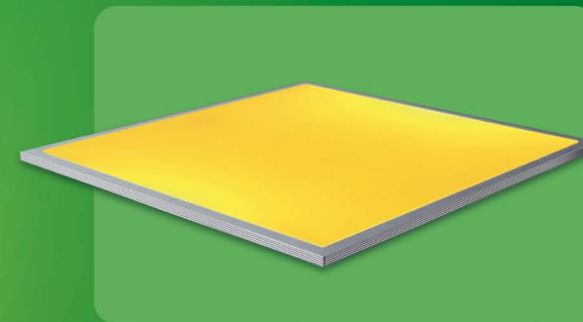

Tested 18 different ways

LED panel light, UL No. E347425

Double-faced slim LED panel light

LED panel light with adjustable CCT

Round LED panel light

For quality, feature-packed LED panel lights, turn to a specialist – us. Not only are our models UL-listed, but they are CE-certified and approved by SGS inspectors. Your customers are sure to appreciate their features too, including adjustable correlated color temperature (CCT) levels of 2,200 to 6,500 kelvin. They also last up to 10 times longer than traditional tube lights and have voltages as low as 12 volts, making them more eco-friendly.

Utilizing QC machinery from Germany, our lights are subjected to 18 different inspections, including 48-hour age tests. And our 20 R&D experts design up to 10 new models monthly and complete OEM samples in just one week.

To view our full range of LED panel lights, ceiling lights, tubes, spotlights, strips, ground lights, wall washers and modules, visit our Global Sources Online showroom. Or, contact our sales team in English, Japanese or German today.

Introducing our latest ETL-approved LED tubes

LED tubes, ETL No. 4001155

If your customers are demanding the latest in LED lighting technology, then we have the products for you. Our ETL-approved LED tubes, shown here, are highly stable as they boast isolated drivers. Plus, they also have overload, constant-current, and short- and open-circuit protection. They are also subjected to 4,000-volt shock tests, feature 3528 and 5050 SMD LEDs, and have power factors of more than 0.95.

Eco-conscious users are sure to appreciate these tubes too, as they emit no UV rays or IR radiation and contain no mercury. Plus, they have life spans of 50,000 to 80,000 hours – 10 times longer than traditional fluorescent tubes. And their oxidized 6063 aluminum alloy housings ensure effective heat dissipation, while highly transparent PC covers minimize glare.

Utilizing QC machinery from Germany, our lights are subjected to 18 different inspections, including 48-hour age tests. And our 20 R&D experts design up to 10 new models monthly and complete OEM samples in just one week. To view our full range of LED tubes, wall washers, panel lights, ceiling lights, spotlights, strips, ground lights and modules, contact us today.

12/24W square LED wall washer
• 13 programmable color changes via DMX controller
• IP65-rated
