

Offering feature-packed GSM alarms and components

Microwave motion sensor components

GSM alarm system

Offer your customers enhanced security solutions by sourcing our feature-filled GSM alarms. The system you see here boasts a built-in microwave radar motion sensor, backup battery, and is less likely to have signal interference or false alarms. Along with finished products, we also offer a range of microwave Doppler radar sensor modules and high end RF components such as mixers, combiners, splitters, filters and isolators. Inquire now.
