

Over 12,000 interior and exterior lighting options available

Since 1972, we have been a leader in the electrical products industry of mainland China. Over the years, we have developed over 12,000 interior and exterior lights to offer our clients. Our design team adds 20 new designs each month to this selection, and they are ready to work on your custom OEM projects. Samples can be ready within 24 hours for urgent requests.

Our products are popular among clients from over 50 countries and regions around the world. Their volume orders have increased our annual export volume total to over \$20 million. We have 500 employees ready to work on your orders.

Because almost all of our output is destined for international markets, we are very familiar with the complexities of market entry. Our goods have VDE, UL, Semko, CB and CE approvals to make the process run smoother. We also send products to TÜV for inspections. Contact us today for more information.
