We put great emphasis on developing the kind of product portfolio that satisfies the needs of clients worldwide. Our exceptional collection of devices includes:

IP series: Eco-savvy network cameras with low

power consumption and ultra-low lux rating.

Analog series: 800TVL analog cameras with Mega-HDIS technology, bringing analog image quality to a new height.

HDCVI Series: HDCVI cameras with analog HD imaging, real-time streaming and over-coaxial-cable transmission.

Our HDCVI (High Definition Composite Video Interface) technology was developed in-house. It features real-time streaming and 500m⁺ over-coaxial-cable transmission, enabling HD images to be shown at 1920 x 1080 resolution or 1280 x 720 resolution via progressive scanning.
