

A professional manufacturer

We are looking for global distributors and agents

of LED lighting products

50W dimmable back-lit LED panel light

36W dimmable edge-lit LED panel light

4/6" dimmable recessed LED downlight

170° wide-angle polycarbonate LED tubes

PAR30/38 LED bulb, UL-certified with Cree chip

120/160W LED high bay light

Over 14 years' industry know-how

As a professional ISO 9001:2000-certified mainland China-US joint venture with more than 14 years' experience in the lighting industry, we are one of the leading manufacturers and exporters of LED lighting products in mainland China. Our company has grown to include manufacturing facilities, warehouses and a quality assurance laboratory totaling 65,500m².

Products with 3-year warranties

We offer an extensive range of LED panel lights, bulbs, spotlights and more. Unlike many standard LED lights, these models can be used with conventional dimmer switches. And we back each of our items with a three-year warranty.

Agents in the US

For your convenience, we have a marketing and customer service division in Michigan. We are also looking for global distributors and agents. So contact our representatives in the US or directly send us your inquiries today.

13 years' cooperation with Global Sources
