• Various plugs available

## Source from an MFi-licensed

### More than a decade of industry expertise

With 13 and 17 years' experience developing power banks and Li-ion batteries, respectively, our power solutions are sure to meet diverse buyer requirements. Our rich industry know-how is one of the reasons why leading companies value our OEM/ODM services. We've also obtained an MFi license to enable us to offer products compatible with Apple devices.

### Top-quality materials and patented designs

We are strongly committed to high quality standards – that's why we utilize materials tested to an AQL of 0.25. Our patented designs

are made in accordance with CE, FCC and RoHS guidelines. For buyers with stricter requirements, we can offer products carrying UL, ETL, PSE, KCC and other quality marks as well.

### Over 200 models to choose from

Find everything you need in our catalog of more than 200 models. Source from our range of power bank cases, power banks, power docks, battery packs, in-car chargers, AC adapters and accessories. We can easily handle volume requirements, thanks to our 800-member workforce and monthly capacity of 4 million units.

## manufacturer

### Strong R&D capability

Our team of 50 skilled engineers are experts in mechanics, electronics and software, and industrial and packaging design. In addition, we employ innovative techniques to develop new products each day for top brands worldwide. Contact our sales team or visit our online showroom today to learn more.
