

Specializing in silver and brass jewelry for 16 years

Silver jewelry set with CZ stones

Well-known buyers such as Folli Follie, Morellato, Kinglce and Agatha appreciate the silver and brass jewelry we've been producing since 1997. We apply micro pavé wax setting techniques, and use advanced equipment like Solidscape 3-D printers to produce high-precision necklaces, earrings, rings, bracelets and other accessories. We employ 20 designers – with an average of five years' experience – who can communicate with you in English so you're fully aware of everything going on in the design and production processes. To start with an order for only 100 pieces, contact us today.
