

- Custom-made silicone rubber part
- Oil-, abrasion-, vibration- and high temperature-resistant
- Can be made from NBR, EPDM and more
- Custom designs and colors available

Foxconn, Delta, AVC, Lite-On, Sunon and Compal source from us

- Founded in 2001; 8 offices in mainland China
- Exporting to Thailand, India, Singapore and more
- Offering various rubber and plastic items including O-rings, seals and gaskets
- ISO/TS 16949:2014-certified factory
- Our workshop use automated and semi-automated production equipment
- Professional R&D members with 10-15 years' experience in the industry
- 7- to 12-day sample lead times

Global Sources Verified Supplier ★★★★★

- Custom-made silicone rubber part
- Oil-, abrasion-, vibration- and high temperature-resistant
- Can be made from NBR, EPDM and more
- Custom designs and colors available

- Customized motor shell metal riveting parts
- Surface treatment: trivalent chromium environment-friendly blue zinc, white zinc, colored (salt fog 8H-240H), electro deposition, coating
- General specification: 3-100mm
- General material: SPCC, SPCC, SECC, SECD, SGCC, SUS, white copper and phosphorous bronze, and more
- Application scope: system application radiating fan, communications, motors
- OEM/ODM orders are welcome

- Custom-made silicon steel sheet
- Main material: NSSMC, Sinosteel, Baosteel, PN and more
- General specification: 5-130mm
- Surface treatment: electro deposition, coating
- Application scope: radiating fan, motor, transformer
- Production cycle: 3-5 days

- Fan grill with protective metal guard
- Main materials are iron wire and stainless steel
- Finishing: nickel plating, chrome plating, black paint backing, paint spray, zinc plating, black electrocoating and bronze plating
- General specification: 3-60mm
- Uses: air conditioners, motors, exhaust fans, radiators, generators and more
- Custom diagrams or samples are accepted
