

# We offer production capabilities you can rely on

Power transformers

Our 200 personnel are able to provide production capabilities that you can trust. At our two factories, which boast 15 production lines, we're able to turn out more than 1 million units monthly. Accordingly, the delivery of 200,000 pieces takes only two weeks. We offer magnetic components, transformers, coils, inductors, voltage regulators and more. OEM orders are accepted and samples can be finished in one week. Call our sales team today to place an order for 1,000 units or more.
