TESTS AND RESULTS

Test Conducted:

Durability of sliding doors and horizontal roll fronts with reference of BS 4875-7:2006.

General Test Condition:

The following test program was conducted in a laboratory environment maintained at 15°C to 25°C and 50%±5 RH. The sample was individually tested after conditioning in the test environment for at least 24 hours prior to conducting the test.

The complete detailed procedures may be found in the referenced specification and are only summarized herein. Unless otherwise specified, the tests are carried out in the following order on the same sample.

No. of Sample:

1 set. For more sample information and pictures, please refer to the following page.

| Test and Requirements | Test Results |
|--|--------------|
| <p>Durability of sliding doors and horizontal roll fronts with reference of BS 4875-7:2006</p> <p>Open and close the door/roll-front for the number of 100,000 cycles. The movement shall be 50 mm from the fully closed position, without forcing the stops, to a position approximately from the fully open position.</p> <p>The door shall be opened/closed gently at a rate of 1 to 3 cycles per minute.</p> <p>If the door/roll-front has a catch device at any position, operate this at each cycle.</p> <p>After test, none of the following shall have occurred (With reference of clause 4 of BS 4875-7:2006):</p> <ul style="list-style-type: none"> a) Any deformation or wear of any component that will affect its function; b) any loosening, shown to be permanent by hand pressure applied to suitable members, of joints intended to be rigid; c) any changes that prevent movable parts opening or closing freely or that cause movable parts, other than drawers, to require application of a force in excess of 100 N for operation. | <p>PASS</p> |

Remark:

1. The test method was referenced to clause 7.2.3 of ISO 7170:2005;
2. The total load 35 kg and cyclic number 100,000 were specified by client;
3. The dimension of testing door is 1200 mm W x 1300 mm H x 30 mm T;
4. One cycle consists of a path 600 mm forward and 600 mm backward;
5. For the sample pictures, please refer to the following page.
