Remark:

1. *PBT = Persistent, bio accumulative and toxic as defined in Regulation (EC) No 1907/2006*
2. *vPvB = Very persistent and very bio accumulative as defined in Regulation (EC) No 1907/2006*
3. *ND = Not Detected*
4. **Result is based on the heavy metal or inorganic element concentration. Due to the limit of the analytical technology available, any further investigation is not feasible. The client is strongly advised to review the chemical formulation to ascertain.*

Note:

1. *The limit of 0.1% (w/w) applies to an article. The results were calculated assuming as the submitted sample was an article. However, the results may not be applicable if the intended use of the sample is a substance or mixture. According to REACH, definition of an article, substance and mixture are:*
 - i. *Article - An object during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition*
 - ii. *Substance - A chemical element and its compound in the natural state or obtained by any manufacturing process*
 - iii. *Mixture (Previously known as "Preparation") - A mixture or solution composed of two or more substances*
2. *In accordance of Article 7 of Regulation (EC) No. 1907/2006 (REACH regulation) – Registration and notification of substances in articles, any producer or importer of articles shall notify ECHA, if a substance meets in criteria in Article 57 and is identified in accordance with Article 59(1), if both (1) the substance is present in those articles in quantities totalling over 1 tonne per producer or importer per year & (2) the substance is present in those articles above a concentration of 0.1% weight by weight (w/w) are met. The information to be notified shall include (a) identity and contact details of the producer or importer, (b) the registration numbers, (c) the identity of the substance and (d) the classification of the substance, (e) a brief description of the use of the substance and (f) the tonnage range of the substance.*

In accordance of Article 33 of Regulation (EC) No. 1907/2006 (REACH regulation) – Duty to communicate information on substances in articles, any supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in concentration above 0.1% weight by weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier
