The verification of conformity is based on an evaluation of a sample of the above mentioned product. Technical report and documentation are at the applicant's disposal. This is to certify that the tested sample is in conformity with Low Voltage Directive 2014/35/EU relating to electrical equipment designed for use within certain voltage limits. The verification does not imply assessment of the series-production of the product. The applicant of the verification is authorized to use this verification in connection with EU declaration of conformity specified in Article 15 and Annex IV of the Directive.
