Company History

◉Founded by Aakshay D Kripalani & Sunaina Kripalani

Expanded to 1*5,000+ SKUs* & established *hundreds of partnerships* across the mobile repair industry

2009
Injured Gadgets

◉Founded by Gary Trinh

Expansion into China & built a dedicated team in China to focus on *wholesale distribution of parts* directly from China.

2012
8 Bit Parts

◉The Merger

Injured Gadgets and 8 Bit Parts merge to form IG Parts 360

Function: **Injured Gadgets' China Office**. Providing dedicated support, and maintaining high standards product and service for Injured Gadgets **and other clients worldwide.**

2015
IG Parts 360(IG360)

IG360: Advantages

Diverse Range of Products

IG360 boasts extensive experience in mobile phone repair and accessories procurement. With over 15,000 SKUs in the system, IG360 offers a diverse range of products including iPhones /MacBooks/iPad /Samsung / Google Pixel / Moto / LG screen assembly and all small parts like charge port, back glass, back housing, front / real camera, repair tools, polishing machines, batteries and ect.. IG360 commitments to quality ensures that we meet the diverse needs of our customers.

Given the vast array of products in the phone repair industry, we also maintain a dedicated product SKU management system. This system allows us to track and manage our inventory efficiently, ensuring that we ship the exact versions and quality specifications requested by our clients. This attention to detail is crucial in meeting our customers' unique requirements and preferences.

Supplier Networks :

IG360 collaborate with hundreds of diverse suppliers and factory partners each year, fostering solid and in-depth relationships. This extensive network enables us to continually compare prices and quality across suppliers, ensuring that we always support/buy from the top-performing vendors. As a result, IG360 is able to provide first-hand information and best resources in China.

Moreover, the seamless communication and technology/information sharing between IG and IG360 further enhance our professionalism and leadership in the phone repair industry and providing clients with up-to-date information on production timelines, pricing adjustments, and quality assessments.

IG360: Advantages

International Client Inquiry Management

Comprehensive Research & Sourcing: IG360 provides specialized support for international inquiries, researching and sourcing products that may not be readily available in other markets to fulfill unique customer needs.

End-to-End Request Fulfillment: Our team manages the full process for custom product requests, from initial research and factory coordination to quality assurance and shipping logistics, ensuring that all unique product requirements are met with precision.

Dedicated Team :

We have over 13 years of experience operating in China. At IG360, we have established our own independent quality control management system. This system would specially allows us to conduct thorough quality testing and comparisons when it comes the new product/supply, accompanied by detailed quality test reports. This rigorous process ensures that every product we offer meets our high standards for quality and reliability.

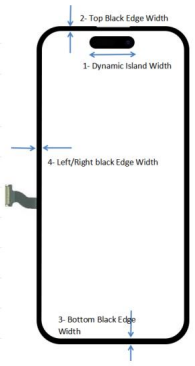

Our commitment to quality and systematic management enables us to respond quickly to market changes, customer needs and customer complaints, ensuring that we consistently deliver exceptional value.

IG360 has a comprehensive after-sales and complaint management system. When customer encounter an issue, we can quickly identify the shipment batch and supplier by analyzing product images. This allows us to resolve problems efficiently and ensure customer satisfaction.

IG360: Key Services for Distributors & Depots

Private / White Label Products & Services

- **Full-Service Customization**: We provide a comprehensive range of private-label options, including custom packaging, branding, and tailored quality levels, ensuring your product aligns with your brand identity and market standards.
- **End-to-End Solutions**: From design and development to quality assurance and packaging, we handle all processes to deliver ready-to-market products for distributors.

Competitive & Transparent Pricing

- **Aligned with Market Standards**: Our pricing is competitive with leading Chinese suppliers, ensuring value without compromising on transparency.
- **Quality Control & Cost Efficiency**: We provide transparent pricing that reflects our high standards in quality control, allowing you to know exactly what you're paying for and the value added at each step.

Training Services for Repair Depots

- **Expert Network Access**: We offer training sessions led by skilled technicians across our extensive network to educate repair depot staff on parts handling, tools, and advanced repair techniques.
- **Custom Training Modules**: Our training programs can be customized to address the specific needs of your team, enhancing their skills and knowledge of the latest technology in mobile repair.

Unique Parts Sourcing & Customization

- **Customized Part Production**: With access to factory resources, we facilitate the production of custom parts tailored for high-volume repair needs, meeting unique specifications that standard suppliers may not provide.
- **High-Volume Solutions**: Our resources allow for efficient large-scale production, ensuring timely fulfillment of unique parts requests.

Access to International Refurbishment Depots & Resources

- **Global Partnership Facilitation**: We connect you with reputable refurbishment depots worldwide, broadening your access to quality refurbishment services and global resources.
- **Streamlined International Support**: Our established partnerships allow for smoother logistics, improved quality control, and faster turnaround times for your refurbishment needs.

IG360: Key Project Highlights

Market Expansion

- **Global Distributor Growth**: We have supported clients in expanding their distributor presence across multiple regions, including the USA, EU, UK, South America, Japan, and Australia. Leveraging Injured Gadgets' proven growth strategies, we help companies establish a strong market presence with a scalable blueprint.

Product Manufacturing

- **Custom Part Production for Unique Needs**: Recently, we developed exclusive ONN tablet replacement parts for a major repair depot, addressing a gap in the market where no existing options were available. Through IG360's strong factory connections, we sourced and produced high-quality parts tailored to the client's needs.

Product Development & Research (R&D)

- **Innovative First-to-Market Solutions**: IG360 collaborates with factories to pioneer cutting-edge repair solutions. Our latest project includes an on-demand screen protector installer integrated with a film cutter for seamless application. In previous projects, we led the market by developing tools to bypass "non-genuine" messages in battery replacements and custom LCDs as early as the iPhone 6, setting new standards in mobile repair technology.

Refurbishment Services

- **Industrial-Scale Refurbishment Support**: We have assisted companies in establishing industrial-grade refurbishment centers, optimizing for high-volume refurbishments. Additionally, we've facilitated partnerships with top refurbishment centers in Hong Kong, providing access to facilities with established government connections to streamline international refurbishing processes.

IG & IG360 Brands

FX5 Screens - Highest quality standard for LCDs/OLEDs. In-house developed; we were the first company to create high-range LCDs in China, sold in the USA for iPhone 6 to iPhone 8.

XCAP Batteries - Highest quality standard for batteries. In-house developed to the highest standard, making major improvements in current technology. Our newest project, **XCAP Connect**, allows repair techs to remove the non-genuine message without soldering.

Grip Brand - In-House Accessories & Tooling brand designed specifically for repair techs.

Grip Glass - Highest-grade tempered glass for aftermarket screens. We have an upcoming release of new Grip Glass technology, which is patented in the USA.

Grip Tools - Custom tooling designed for repair techs.

Protection Pro - Lintec, the parent company of this product (https://www.lintec.co.jp/), manufactures it in the USA. Used by NASA in the International Space Station, it is sold globally in over 5,000 retail stores. Compatible with all mobile devices, including phones, watches, game consoles, and tablets. The system covers over 30,000 devices, with over 20 million devices protected with these films. Instructions can be provided in Japanese upon request.
