

M&T

鳴騰科技股份有限公司

MTCONN ELECTRONICS CO., LTD

讓世界連接更精彩！

M&T originated in 2004, passed ISO9001 International Quality Management System Certification, IATF16949 Automobile Quality Management System Certification and ISO13485 Medical Device Quality Management System Certification. M&T is a high-tech enterprise, integrated mold design and processing product design, production and marketing.

M&T main products are: **FPC, USB/Type C, Pin/Female /Box /Ejector Header, Board toBoard, Wire To Board, DC/ Earphone Jack, Card Connector, HD/DP/VGA, Battery Connector, RJ Networking, Wiring Harness, Data Cable, FFC/ FPC Cable.**

M&T connectors are widely used in: Consumer Electronics, Automobile Electronics, Medical Electronics, Communication Electronics, Computer and External Devices etc.(Such as Car, Computer, Display, Mobile, Pad, Household Appliances, Science & Education Electronics and Industrial Control Equipment etc.)

M&T adheres to the business philosophy of simplicity, innovation, integrity, reliability, relies on professional technical talents, and commits to provide customers with the high-quality precision connector system solutions. At present, M&T has become the preferred supplier for many well-known domestic and abroad companies.

2004

Launched

FPC Series Products with pitch 0.5mm & height 2.0mm

2006

Launched

Pin Header, Female Header, Box Header Series Products with pitch 1.0/1.27/2.0/2.54/3.96mm

2008

Launched

USB2.0, DC Jack Series Products

2012

Launched

USB3.0, Earphone Jack Series Products

2014

Launched

FFC Cable with Pitch 0.5/1.0/1.25/2.54mm and
Wire Harness Products

2016

Launched

PH0.4/0.5/0.635/0.8mm BTB Series Products

2019

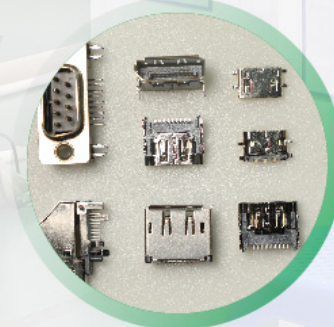

Launched

USB3.0 Type-C Series Products、RJ45 Series Products

2021

Till Now

Engaging in customized connectors for customers

Vision: MTCONN makes the world a better connected place!

Mission: With professional technology, MTCONN provides customers with high-quality connector solutions.

Values: Creates value for customers, creates a platform for employees, creates benefits for partners!

Service: Do whatever we can do to provide customers with premium connectors, Spare no effort to deliver customers with worry-free services.

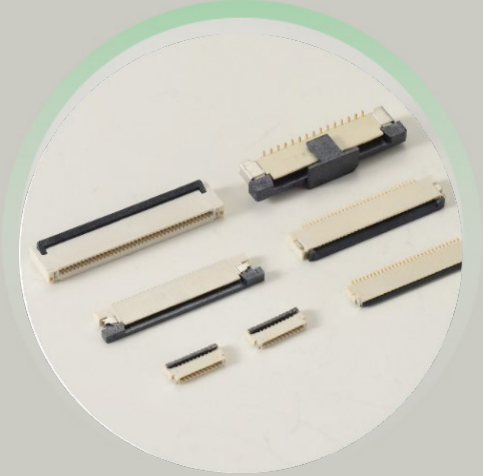

We provide *16* series connectors

Core Competences

1. 20 years experience in precision connectors design and manufacturing.
2. Our R&D and connector manufacturing technology originate from Japan and US.
3. Design and manufacture a variety of special customized connectors
4. Independent designs and automatic manufacturing assembly equipment can reduce cost and ensure quality
5. Regard the customers' requirements as the highest priority and make the fast response within 24 hours.
