Company profile

Shenzhen Tcbest Battery Industry Co.,LTD.

Shenzhen Tcbest Battery Industry Co., Ltd is a leading global manufacturer of portable power in China. We focus on research, production and selling alkaline batteries, carbon batteries, lithium manganese button batteries, Ni-MH, Ni-Cd rechargeable batteries, PLIB and battery chargers,etc.

We have 2 modern production bases in Huizhou, Guangdong province and Jiyuan, Henan province which cover an area of 18,000 square meters and accommodate over 450 employees. We have 20 production lines and our output can reach 700,000 pcs per day. Above all, all series of the batteries are all green products and have no Hg, Cd and PB.

Tcbest always were and always will be implementing ISO9001:2008 standard to guarantee the quality and stability of the products. Tcbest has also paid great attention to ROHS directive and till now, our products have already passed the CE, SGS international tests,etc.

We take humanistic management as our concept, regarding people as the most important factor in our development. We pay more attention to safety and environmental protection and undertake the responsibility of the society. We, Tcbest people, with great passion and faithfulness, are willing to provide our customers perfect service and striding forward with you to create a bright future.

Company Culture

Company Culture

Our Principle:

Upholding the dominant technologies!
Advocating industry norms!
leading superior quality!
Advancing Corporate civilization!

Business philosophy:

Teamwork, Sincerity, Innovation, Gratitude
Teamwork: One Tcbest, one home, grow together !
Sincerity: Sincerity, integrity and goodwill to customers and market!
Innovation: Never stop to explore, never stop to innovate, never stop to develop!
Gratitude: Best reciprocation to our society, customers, shareholder and employees with gratitude! Creating a more harmonious society is our long-term goal!

Business policy:

1. Quality Policy:

Offering the best value to our customers by constantly understanding, accepting, meeting and exceeding customers' demands and expectations.

2. Environmental Policy

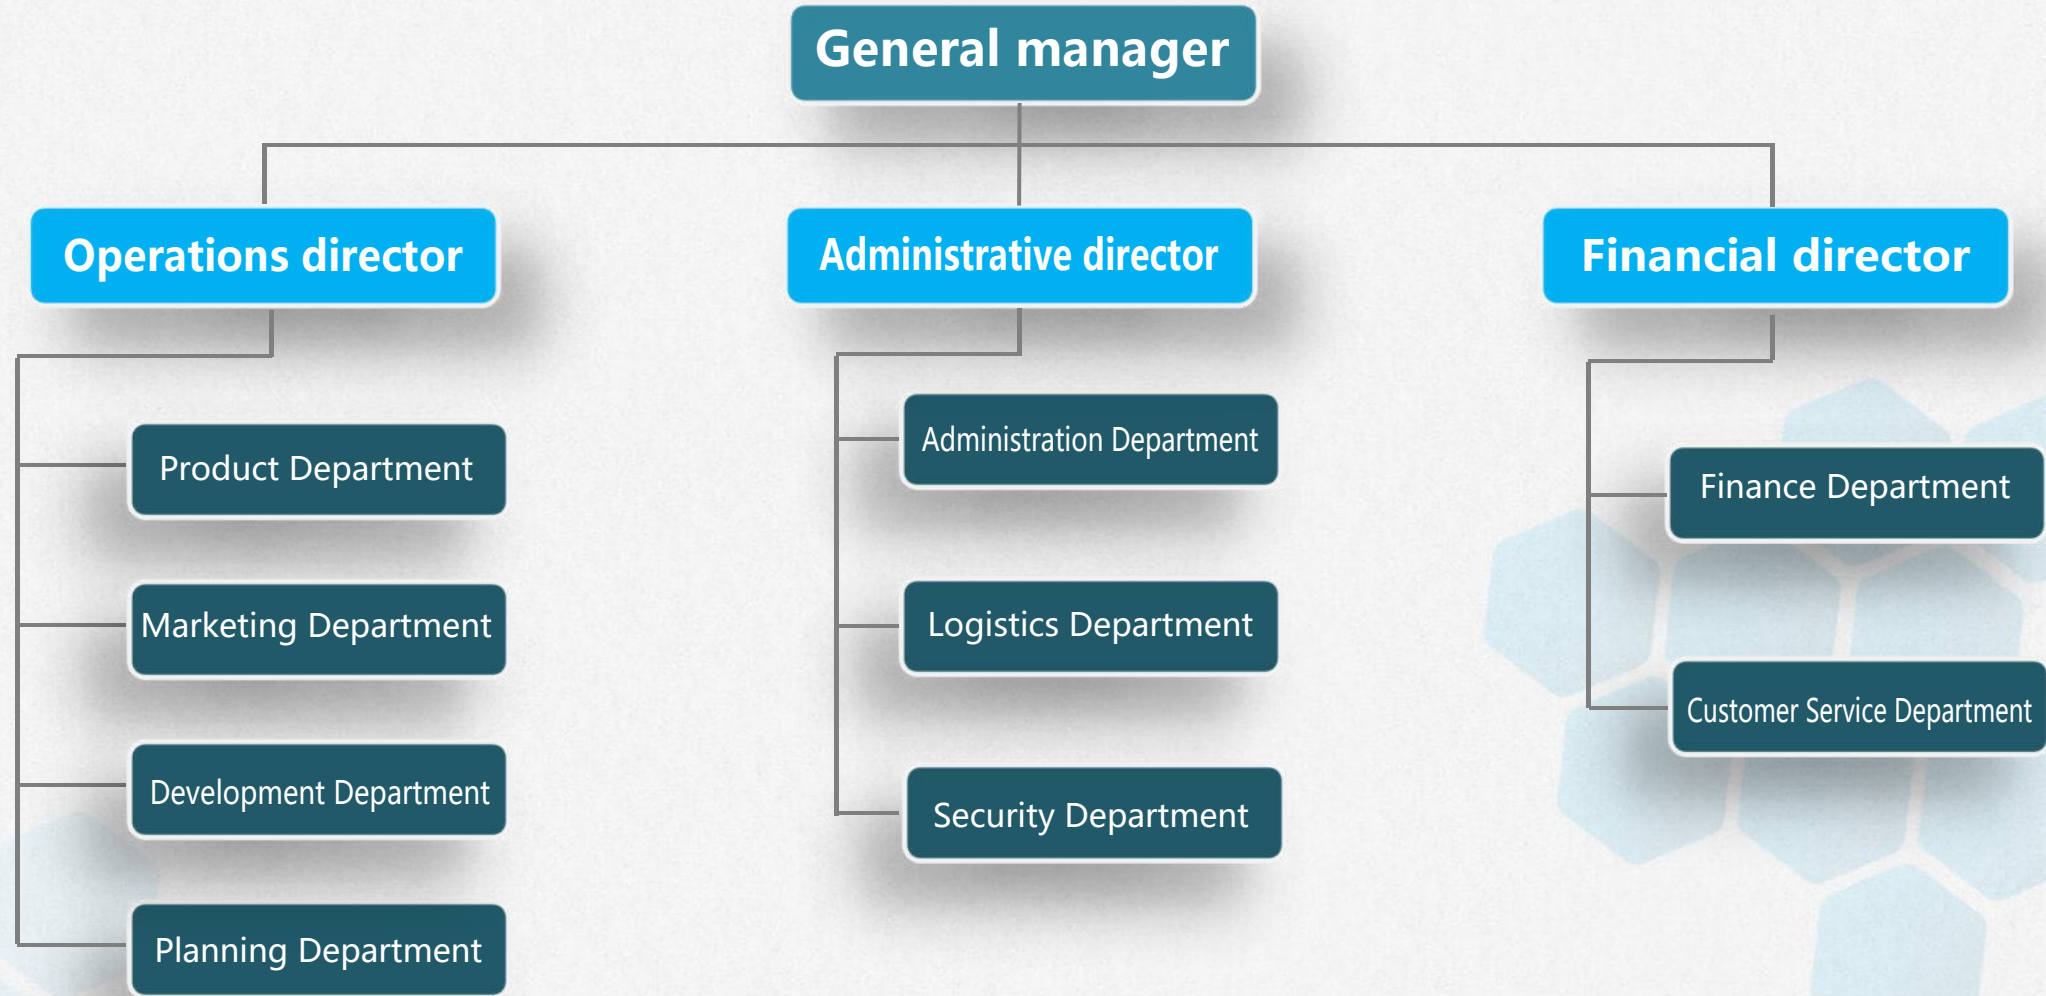

Minimizing the impact on environment!
Enhancing employees' environment consciousness!
Advancing corporation civilization!
leading green living!

Company Memo:

Thinking with impartiality!
Communicating with candidness!
Sincerity to help weakness!
Learning to advance with the times!

Products

- Alkaline
- NI-MH
- Lithium Battery
- ZINC Carbon Battery
- Button cell
- Battery Charger

Alkaline Battery

Advantages: large capacity, high discharge platform,

The temperature requirements for the working environment are relatively low,

Excellent storage performance.

Application areas: remote control, camera, alarm clock, electric toy, tape recorder, flashlight, etc.。

◆ Zinc Carbon Battery

Zinc-carbon batteries are dry cell batteries that deliver a potential of 1.5 volts. The cell could more properly be called a "zinc-manganese" cell. Zinc-carbon batteries are used in flashlights and other portable devices possible, because the battery can function in any orientation. They are still useful in low drain or intermittent use devices such as remote controls, flashlights, clocks or transistor radios.

NI-MH Rechargeable battery

Advantages: Long service life: Under normal conditions of use, Tiancheng giant energy battery cycle more than 500 times.

- High rate charge and discharge performance
- Wide temperature range: In high and low temperature environment, the battery performance is stable, the working temperature range is $-10^{\circ}\text{C} - 70^{\circ}\text{C}$.
- Good storage performance: At room temperature ($20 \pm 5^{\circ}\text{C}$), the battery capacity remains above 70% after 1 month of storage.
- High stability: Tiancheng Giant Energy Company uses the best materials, advanced production technology and technology to make battery performance stable and reliable.

Application areas: remote control, camera, alarm clock, electric toy, tape recorder, flashlight, calculator, medical equipment, recorder, etc.

◆ Button Cell

Advantages: high energy density

- The discharge voltage is stable
- Can be stored at room temperature for more than 10 years
- Good sealing
- Wide operating temperature range: $-40^{\circ}\text{C} \sim 60^{\circ}\text{C}$

Application areas: stereo headphones, CD players, office equipment (fax machines, copiers, printers)
Calculators, medical equipment, recorders, etc.

Other Lithium battery

◆ Battery charger

Input AC 100-240V 50/60Hz
Output DC 2.4V MAX/MIN 200mA
DC P.P. 20mA

CAUTION:

- Don't charge in a fire or explosion hazard
- Don't charge in a wet or humid environment
- Don't use a charger different specification as specified
- Don't use a battery
