ROMTRONIC

Cables to Run

Your Premier Source for Reliable Cable Assemblies & Wire Harnesses
Designed for Professional Applications

Company Profile

Romtronic International Co., Limited, established in 1997, is a designing and manufacturing service organization specialized in cable assemblies, wire harnesses, as well as other relevant computer peripheral products. With one strategy in mind-providing quality products and services with accountability, our corporation has been dedicated to company quality management, continuous improvement and customer satisfaction. "Striving for Perfection Continually" has been our quality motto since we were created.

We now have more than 300 dedicated and skilled workers and 50 professional and experienced management staff with a working space of 10,000 square meters. Also, our quality program drives us in a course to always be better in advanced production and equipment testing as well as an evolving quality assurance system.

» Management Philosophy

International standards of providing high-quality and outstanding service to our customers.
Attention to detail in everything that we do.
Employees are our biggest asset.
Environment of empowerment and mutual respect creates high satisfaction among our employees.
Comfortable living and working environment creates low turnover.
Lower turnover rate allows us to maintain a well-trained work force.
Modern and open philosophy encourages personal development and allows employees to grow together with the company.

» Engineering Expertise

Engineering team dedicated to customer support throughout cabling design phase.
Advanced tool design capability that facilitates fast production of new tooling.
In-house CAD & Pro-E drawing capabilities to produce specifications used for all manufactured goods.
Ability to research and develop new cabling products and solutions from concept to drawing to wiring to final mechanical assembly.
Professional and strong engineering team consisting of drawing engineers, electronic engineers, mechanical engineers, process engineers and quality engineers available to support all kinds of needs from our customers.

Manufacturing Workshop

» Mission Statement

Romtronic's mission is to profitably provide cabling and electronic solutions to our customers, as well as a secure and gratifying work environment for our employees, while maintaining world class supplier status as defined by our customers with regard to quality, delivery, capacity, technology and cost.

» Market Strategy

It is our goal to find reliable and aggressive cabling and electronic distributors that service OEMs and resellers throughout the world to market our high-end cable assemblies, wire harnesses, as well as other relevant computer peripheral products and services.

The objective is to help our customers be as competitive as they need to be in this global market place, and to grow to become even stronger forces in the industry.

As is the case with our existing strategic relationship, we will pursue growing our business with an exclusive list of partners worldwide.

We will "get the world out" through participation in several major worldwide industry tradeshows including CeBIT in Hannover, CES in Las Vegas, Hong Kong Fair and Guang Zhou Fair. We are also advertising our capabilities both on-line and in print via Asian Sources.

Rather than expand our sales force to pursue opportunities directly with OEM customers, we will rely on the efforts of our partners in bringing new business opportunities to the table.

» Manufacturing Strength

For more than 20 years, our engineers, salesmen, purchasers and experienced workers have provided OEM engineers with affordable solutions that are custom manufactured for their needs.

We now have more than 300 dedicated and skilled workers and 50 professional and experienced management staff with a working space of 10,000 square meters.

Test Equipments

» Quality Assurance

Our management and work force are committed to the highest quality products and services. This constant commitment has been recognized through approval with ISO9001, ISO14001, ISO13485, IATF16949, UL, MFI, IPMS, CE certifications.

We are in the business of adding value to the products you buy. For more than 20 years, our staff of engineers, salesmen, purchasers and experienced workers has provided OEM engineers with affordable solutions that are custom manufactured for their needs.

We utilize rigorous Quality Assurance standards to assure our customers of the highest level of quality.

We also have the capability to be your Just-In-Time supplier. This can help keep your production line flying along and provide better cash flow management by eliminating the need to maintain inventory.

Since every manufacturer has different needs and different problems to overcome, we are committed to providing exceptional services to every customer. We will work with you to provide the best solution for your needs.
