Competitive Cost & Guaranteed Quality

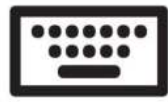

2. Automatic machine production, Cost control effectively

- ① 10 sets injection machines(4sets double injection + 6sets normal injection)
- ② 22 sets mechanical switch production machines
- ③ 11 sets switch assembling machines
- ④ 4 sets auto screw machines
- ⑤ 2 sets keycaps assembling machines
- ⑥ 3 sets laser machines

10sets injection machines:

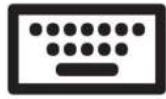

22 sets switch machines:

11 sets switch assembling machines:

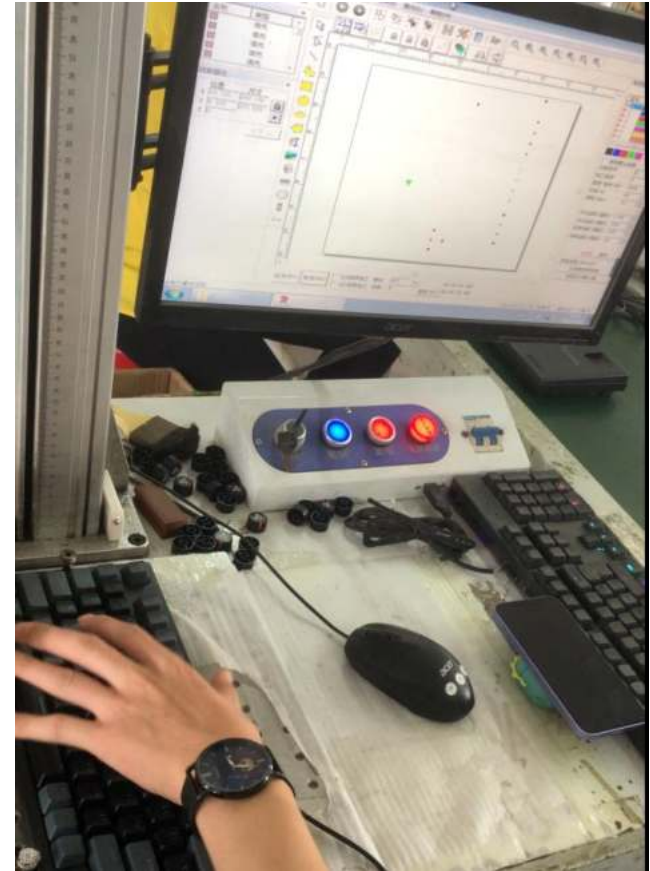

4sets auto screw machines:

3sets laser machines:

2sets keycaps assembling machines:

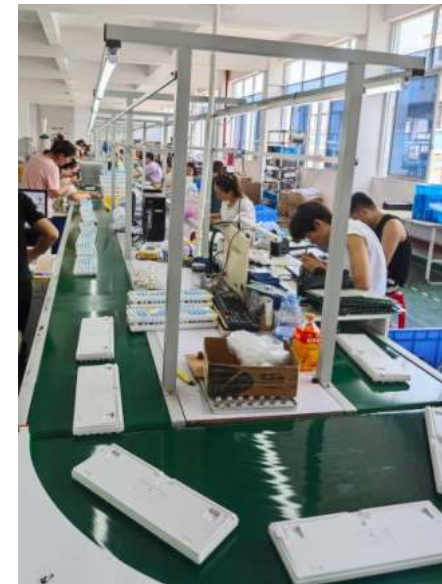

3. High automatic machine production, high consistent quality stand

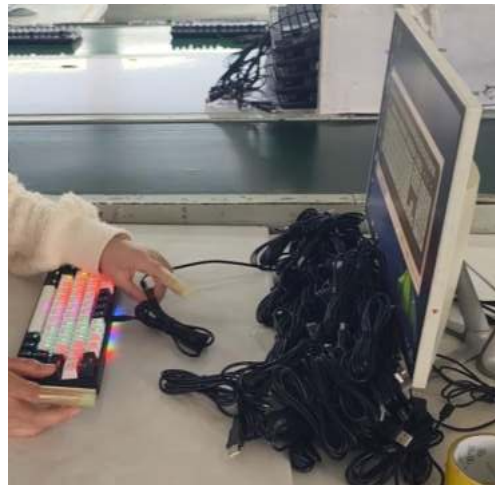

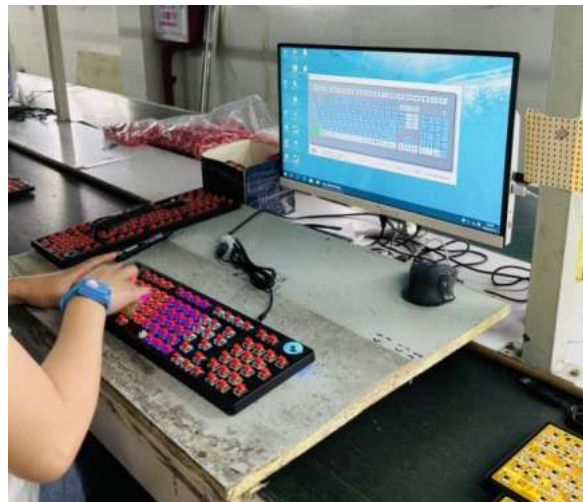

- ① Auto machines 4 production lines
- ② well-developed quality management:IQC, QC, QA
- ③ 3sets function testing machines in producton lines
- ④ **3 sets** Keyboard electrical performance feature+ appearance keycaps assembling+LED light testing
- ⑤ Professional testing room
- ⑥ 3sets PCBA soldering machines

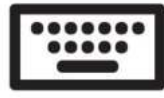

4 Production lines :

IQC, QC, QA and function testing machines :

Salt Spray Tester

Life testing machine

Automobile Simulated tester

Alcohol abrasion tester

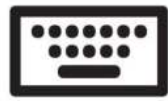

Wire bending tester

Drop tester

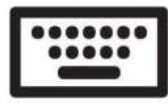

4sets PCBA soldering machines:

3 sets Keyboard electrical performance feature+ appearance keycaps assembling+LED light testing

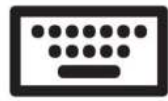

Fast Lead Time

4. High automatic machine production, higher output daily
