

Bosun Technology Limited
2010-2023

Company Profile

To our customers

Since it was founded in 2010, Bosun Technology Limited has been dedicated to supplying innovative technology and designs that will be attractive to our customers, in their homes and businesses. From its offices located in the city of Shenzhen, China, our team has striven to bring to the market computer accessories such as keyboards, mice, headphones, and other products that will meet the functional and aesthetic needs of users everywhere. We strictly control the cost and quality to make sure we can provide competitive prices and good quality to our customers.
