PHONE CASE

Aimo Series Non-Magnetic Case

Material: TPU+PC

Features: Frosted back panel with flowing line texture;
Precision holes for full lens protection;
Wear-resistant and drop-proof;
Anti-fingerprint, comfortable to hold.

Aimo Series Magnetic Case

Material: TPU+PC+Magnet

Features: Frosted back panel with flowing line texture;
Precision holes for full lens protection;
Wear-resistant and drop-proof;
Anti-fingerprint, comfortable to hold;
Support magnetic charging.

Aimo Series Magnetic Stand Case

Material: TPU+PC+Magnet+Aluminum Alloy

Features: Frosted back panel with flowing line texture;
Precision holes for full lens protection;
Wear-resistant and drop-proof;
Anti-fingerprint, comfortable to hold;
Support magnetic charging;
Folding mobile phone stand, can support mobile phone horizontally/vertically.

Clin Series Magnetic Case

Material: TPU+PC+Magnet

Features: Made of high-quality Bayer raw materials;
Clear and translucent, resistant to yellowing;
Four-corner drop-proof airbags;
Anti-fingerprint, comfortable to hold;
Support magnetic charging.

Rafi II Series Magnetic Stand Case

Material: TPU+PC+Stainless Steel+Magnet

Features: Double card pocket design, the inner card pocket has RFID-blocking function;
 Wear-resistant and drop-proof;
 Anti-slip frame, comfortable to hold;
 Support magnetic charging;
 Folding mobile phone stand, can support mobile phone horizontally/vertically.

Yind Series Non-Magnetic Case

Material: TPU+PC

Features: Made of high-quality Bayer raw materials;
 Translucent, matte finishes;
 Four-corner drop-proof airbags;
 Anti-fingerprint, comfortable to hold.

Yind Series Magnetic Case

Material: TPU+PC+Magnet

Features: Made of high-quality Bayer raw materials;
 Translucent, matte finishes;
 Four-corner drop-proof airbags;
 Anti-fingerprint, comfortable to hold;
 Support magnetic charging.

Yind Series Magnetic Case with Ring Stand

Material: TPU+PC+Magnet+Aluminum Alloy

Features: Made of high-quality Bayer raw materials;
 Translucent, matte finishes;
 Four-corner drop-proof airbags;
 Anti-fingerprint, comfortable to hold;
 Support magnetic charging;
 Stand your phone in portrait/landscape orientation.

Skin Pro Series Folio Case

Material: PU+TPU

Features: Simple style, silky PU leather, comfortable to touch;
Provide 360° comprehensive protection for mobile phone;
Built-in single card pocket;
Can be used as a mobile phone stand.

Skin X Pro Series Folio Case

Material: PU+TPU+PC+Magnet

Features: Simple style, delicate PU leather;
 Transparent back panel;
 Anti-fingerprint, resistant to yellowing;
 Double card pocket design with RFID-blocking function;
 Magnetic closure;
 Provide 360° comprehensive protection for mobile phone.

Skin X Pro Series Magnetic Case

Material: PU+TPU+PC+Magnet

Features: Simple style, delicate PU leather;
 Transparent back panel;
 Anti-fingerprint, resistant to yellowing;
 Double card pocket design with RFID-blocking function;
 Magnetic closure;
 Provide 360° comprehensive protection for mobile phone;
 Support magnetic charging.

Skin X Pro Series Magnetic Case with 360° Ring Stand

Material: PU+TPU+PC+Magnet+Aluminum Alloy

Features: Simple style, delicate PU leather;
 Transparent back panel;
 Anti-fingerprint, resistant to yellowing;
 Double card pocket design with RFID-blocking function;
 Magnetic closure;
 Provide 360° comprehensive protection for mobile phone;
 Support magnetic charging;
 The 360° ring stand ensures your phone remains stable no matter the viewing angle.

Hivo Series Real Leather Folio Case

Material: Cowhide+PU+TPU

Features: Genuine leather, comfortable to the touch;
 Provide 360° comprehensive protection for mobile phone;
 Built-in dual card pockets, both with RFID-blocking function;
 Magnetic closure;
 Can be used as a mobile phone stand.

Lawa Series Leather Wallet Case

Material: Wallet: leather + microfiber + metal / Case: TPU + PC

Features:

Selected high-quality cowhide with dense stitching, comfortable to touch and elegant to look;

The magnetic back cover can be used alone after removal, and supports magnetic charging;

It is equipped with a short mobile phone lanyard, which can be hung on the wrist;

The wallet has a zipper, which can store a large amount of cash, cards and even coins.

Bril Series Folding Folio Case

Material: PU+PC

Features: One-piece design;
Provide 360° comprehensive protection for mobile phone;
Does not affect the folding of mobile phone;
Stylish design, delicate feel.

Bril Series Folding Folio Case

Material: PU+PC

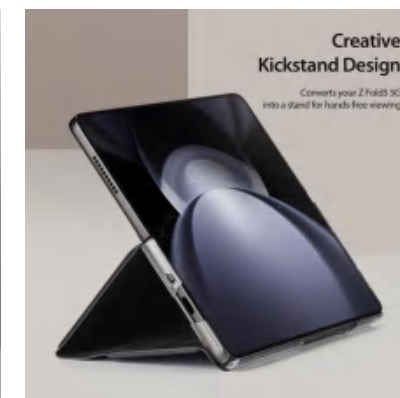

Features: One-piece design;
 Provide 360° comprehensive protection for mobile phone;
 Does not affect the folding of mobile phone;
 Magnetic closure;
 Can be used as a mobile phone stand.

Bril Series Folding Folio Case with Pen Holder

Material: PU+PC

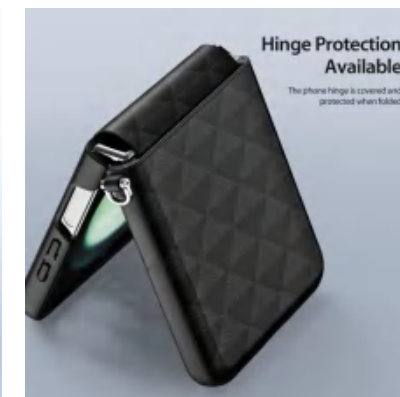

- Features:
- One-piece design;
 - Provide 360° comprehensive protection for mobile phone;
 - Does not affect the folding of mobile phone;
 - Magnetic closure;
 - Can be used as a mobile phone stand;
 - Samsung S Pen Fold Edition can be stored in the pen holder.

Fitt Series Folding Folio Case

Material: PU+TPU

Features: Two-piece design for easy installation;
Provide 360° comprehensive protection for mobile phone;
Does not affect the folding of mobile phone;
Stylish design, delicate feel.

Fitt Series Folding Folio Case

Material: PU+PC

Features: One-piece design;
 Provide 360° comprehensive protection for mobile phone;
 Does not affect the folding of mobile phone;
 Magnetic closure;
 Can be used as a mobile phone stand.

TABLET CASE

Unid Series Tri-fold Case

Material: PU+TPU+PC

Features: Made of high-quality solvent-free PU leather;
 Scratch-resistant and wear-resistant;
 Anti-fingerprint, delicate to touch;
 Transparent back panel, resistant to yellowing;
 Built-in pen holder;
 Provide 360° comprehensive protection for tablet;
 Magnetic closure;
 With automatic wake/sleep function;
 Can be used as a tablet stand to support the tablet horizontally.

Toby Series Tri-fold Case

Material: PU+TPU+PC

Features: Silky leather, light and thin design;
 Scratch-resistant and wear-resistant;
 Anti-fingerprint, delicate to touch;
 Transparent back panel, resistant to yellowing;
 Built-in pen holder;
 Magnetic closure;
 Provide 360° comprehensive protection for tablet;
 With automatic wake/sleep function;
 Can be used as a tablet stand to support the tablet horizontally.

Magi Series Multi-angle Stand Case

Material: PU+TPU+PC

Features: The front cover is removable and the back cover can be used separately;

Scratch-resistant, wear-resistant, anti-fingerprint;

Transparent back panel, resistant to yellowing;

Built-in pen holder;

Magnetic closure

Provide 360° comprehensive protection for tablet;

With automatic wake/sleep function;

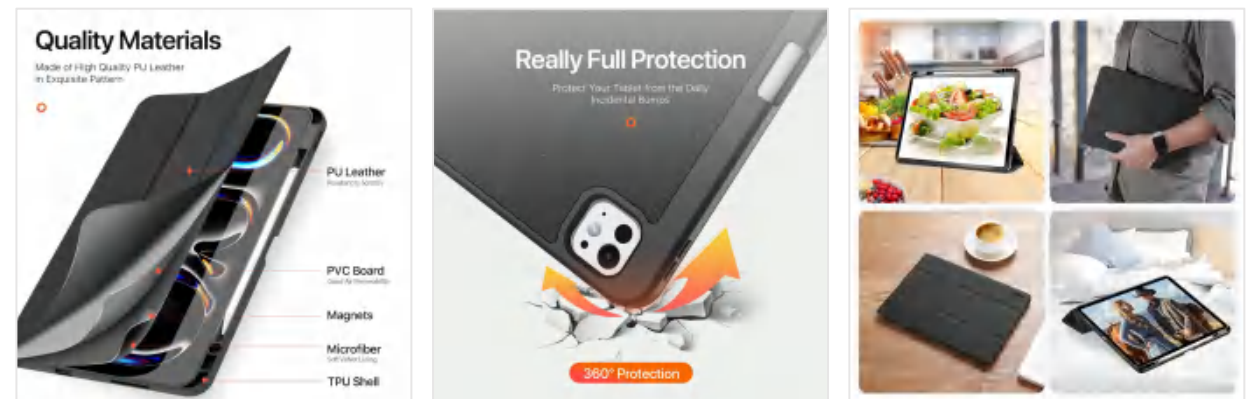

There are six support methods to support the tablet horizontally/vertically

Domo Series Tri-fold Case

Material: PU+TPU

Features: Leather is scratch-resistant and wear-resistant, anti-fingerprint;
 Built-in pen holder;
 Magnetic closure;
 Provide 360° comprehensive protection for tablet;
 With automatic wake/sleep function;
 Can be used as a tablet stand to support the tablet horizontally.

Panda Series Kids Case

Material: EVA

Features: Cartoon image, specially designed for children;
 Environmentally friendly EVA material, safe and non-toxic;
 Scratch-resistant, wear-resistant, anti-fingerprint, washable;
 Flexible material, easy to install the remove the tablet;
 Very light, children can lift it with one hand;
 Optional shoulder strap;
 Provide 360° comprehensive protection for tablet;
 With pen holder;
 Can be used as a tablet stand to support the tablet horizontally.

TABLET PERIPHERALS

CK Series Transparent Keyboard

Material: Acrylic

Features: Scissor structure keys, comfortable to type;
 Colorful LED backlight breathing light, very cool;
 Thin, light and portable;
 Real-time display of battery power;
 Can connect to three devices at the same time via Bluetooth
 and switch easily with one click.

DK Series Magnetic Keyboard Case

Material: PU+TPU

Features: Scissor structure keys, comfortable to type;
 It is both a keyboard and a protective case, that are magnetically connected and can be detached;
 Built-in pen holder;
 Four stand modes, can support the tablet horizontally/vertically;
 Bracket angle adjustable;
 Built-in touchpad supports touch gestures.

MK Series Magnetic Keyboard

Material: PU

Features: Scissor structure keys, comfortable to type;
 Both a keyboard and a protective case;
 Suspended to support tablet;
 Bracket angle adjustable;
 Built-in touchpad supports touch gestures;
 Colorful LED backlight breathing light, very cool.

OK Series Multi-function Keyboard

Material: PU+aluminum alloy

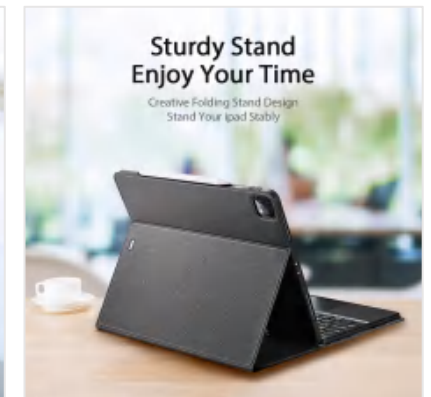

Features: Scissor structure keys, comfortable to type;
 Comes with removable keyboard cover;
 The protective cover can be folded up to serve as a mobile phone/tablet stand;
 Thin, light and portable;
 Built-in foldable touchpad supports touch gestures;
 Can connect to three devices at the same time via Bluetooth and switch easily with one click.

TK Series Keyboard Protective Case

Material: PU+TPU+ABS

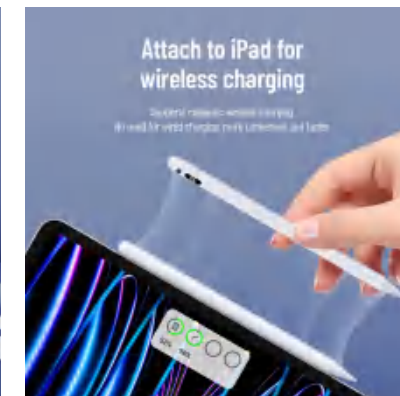

Features: Scissor structure keys, comfortable to type;
 It is both a keyboard and a protective case. The two are magnetically connected and can be detached;
 The protective cover can be used as a tablet stand, and the angle of the stand is adjustable;
 Built-in touchpad supports touch gestures.

SP-05 Magnetic Charge Stylus Pen

Material: Aluminum alloy pen body + POM plastic pen tip

Features: The pen body displays battery power in real time;
 No need to connect to Bluetooth, just touch the switch and it's ready to use;
 Tilt pressure sensitivity allows you to draw thick and thin lines;
 Full screen anti-accidental touch;
 POM wear-resistant pen tip will not damage the screen;
 Can be adsorbed on iPad for magnetic charging;
 Compatible with a wide range of iPad models.

SP-06 Digital Display Stylus Pen

Material: Aluminum alloy pen body + POM plastic pen tip

Features: The pen body displays battery power in real time;
 No need to connect to Bluetooth, just touch the switch and it's ready to use;
 Tilt pressure sensitivity allows you to draw thick and thin lines;
 Full screen anti-accidental touch;
 POM wear-resistant pen tip will not damage the screen;
 Can be adsorbed on iPad;
 Compatible with all iPad models including iPad 2024.

LAPTOP ACCESSORIES

LBJB Series Shoulder Laptop Bag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;

Built-in pearl cotton compartment, shock-absorbing and compression-resistant;

360° comprehensive protection for laptop;

Fabric is splash-proof and resists water penetration;

Double zipper pullers, smooth and easy to pull;

Lightweight and portable;

Large capacity, separate compartment design, can store laptops and respective accessories;

Can be carried on one shoulder, carried by hand, or buckled on the suitcase trolley.

LBJC Series Shoulder Laptop Bag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;
 Built-in pearl cotton compartment, shock-absorbing and compression-resistant;
 360° comprehensive protection for laptop;
 Fabric is splash-proof and resists water penetration;
 Double zipper pullers, smooth and easy to pull;
 Lightweight and portable;
 Large capacity, separate compartment design, can store laptops and respective accessories;
 Can be carried on one shoulder, carried by hand, or buckled on the suitcase trolley.

LBTA Series Horizontal Laptop Handbag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;

Built-in pearl cotton compartment, shock-absorbing and compression-resistant;

360° comprehensive protection for laptop;

Fabric is splash-proof and resists water penetration;

Double zipper pullers, smooth and easy to pull;

Lightweight and portable;

Large capacity, separate compartment design, can store laptops and respective accessories.

LBTB Series Horizontal Laptop Handbag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;

Built-in pearl cotton compartment, shock-absorbing and compression-resistant;

360° comprehensive protection for laptop;

Fabric is splash-proof and resists water penetration;

Double zipper pullers, smooth and easy to pull;

Lightweight and portable;

Large capacity, separate compartment design, can store laptops and respective accessories.

LBTC Series Horizontal Laptop Handbag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;

Built-in pearl cotton compartment, shock-absorbing and compression-resistant;

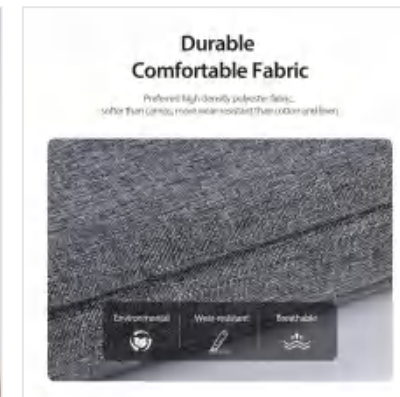

360° comprehensive protection for laptop;

Fabric is splash-proof and resists water penetration;

Double zipper pullers, smooth and easy to pull;

Lightweight and portable;

Large capacity, separate compartment design, can store laptops and respective accessories.

LBTD Series Horizontal Laptop Handbag

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;

Built-in pearl cotton compartment, shock-absorbing and compression-resistant;

360° comprehensive protection for laptop;

Fabric is splash-proof and resists water penetration;

Double zipper pullers, smooth and easy to pull;

Lightweight and portable;

Large capacity, separate compartment design, can store laptops and respective accessories.

LBDA Series Laptop Sleeve

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;

Built-in pearl cotton compartment, shock-absorbing and compression-resistant;

360° comprehensive protection for laptop;

Fabric is splash-proof and resists water penetration;

Double zipper pullers, smooth and easy to pull;

Lightweight and portable.

LBDB Series Horizontal Laptop Sleeve

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;

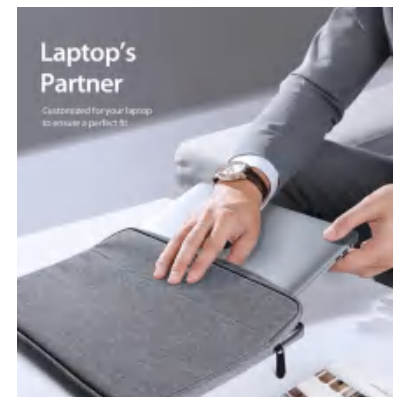

Built-in pearl cotton compartment, shock-absorbing and compression-resistant;

360° comprehensive protection for laptop;

Fabric is splash-proof and resists water penetration;

Double zipper pullers, smooth and easy to pull;

Lightweight and portable.

LBDC Series Vertical Laptop Sleeve

Material: polyester + crystal velvet

Features: The fabric is wear-resistant and scratch-resistant, and the lining is soft;

Built-in pearl cotton compartment, shock-absorbing and compression-resistant;

360° comprehensive protection for laptop;

Fabric is splash-proof and resists water penetration;

Double zipper pullers, smooth and easy to pull;

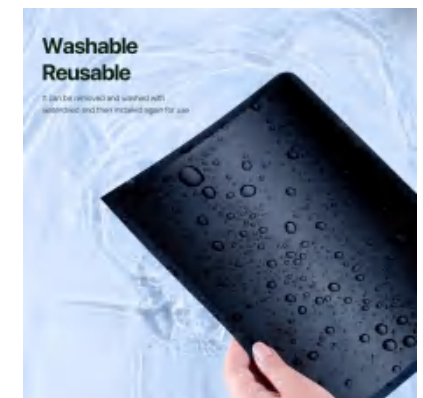

Lightweight and portable.

LENO Series Detachable Laptop Privacy Film

Material: PET

Features: 30° anti-peep, high-definition visible from the front, invisible from both sides;
 Nano glue-free adsorption, no damage to laptop screen coating;
 Automatic adsorption without bubbles, easy to remove;
 0.35mm thickness, does not affect the closure of the laptop;
 Washable and reusable.

LCGH Series Laptop Protective Case

Material: TPU+PC

Features: Seamless fit, 360° full protection;
 Anti-scratch and wear-resistant, anti-fingerprint;
 Does not affect the opening and closing of the laptop;
 Thin, light and portable;
 Micro clip design, disassembly and assembly without damaging the machine;
 With heat dissipation holes on the bottom;
 The hole position is precise and does not affect the normal use of the laptop.

LCGM Series Laptop Protective Case

Material: TPU+PC

Features: Seamless fit, 360° full protection;
 Anti-scratch and wear-resistant, anti-fingerprint;
 Does not affect the opening and closing of the laptop;
 Thin, light and portable;
 Micro clip design, disassembly and assembly without damaging the machine;
 With heat dissipation holes on the bottom;
 The hole position is precise and does not affect the normal use of the laptop.

CM Series Transparent Mouse

Material: ABS+PC

Features: Bluetooth + 2.4G dual-mode wireless mouse;
 Can connect two devices at the same time and switch with one click;
 Mute button;
 Ergonomic design, fits the palm of your hand;
 Widely compatible with multiple operating systems;
 Colorful backlight breathing light, switch colors with one click;
 Built-in USB adapter;
 Fast movement, accurate positioning.

X-Shaped Laptop Stand

Material: aluminum alloy + silicone

Features: Five levels of height adjustable;
 Suspended open design facilitates heat dissipation;
 Large area of silicone, no damage to the device;
 Widely compatible with laptops and tablets up to 17.3 inches;
 Can be folded and easy to carry.

WATCH CASES & BANDS

OceanWave Series Silicone Strap

Material: stainless steel + silicone

Features: Light and weightless;

Snap-on interface, easy to disassemble and assemble;

Refreshing, breathable and comfortable to wear;

Washable and reusable.

KJ Series Magnetic Strap

Material: silicone + magnet

Features: Magnetic design, easy to take off and wear;
Elastic silicone, not tight on skin, moderate tightness;
Snap-on interface, easy to disassemble and assemble;
Can be washed and reused.

CS Series Magnetic Silicone Apple Watch Strap

Material: Silicone + Magnets + Aluminium

Colors: Black/ Starlight / BlueBlack / GreenBlack / BrownGrey

Made of treated soft silicone and magnetic closure for intense workouts and everyday wear.

Moulded magnets help maintain a secure, comfortable fit throughout the day.

Features magnetic, elegant, comfortable and washable, will make you stand out of the rest.

LD Series Magnetic Strap

Material: silicone + magnet

Features: Magnetic design, easy to take off and wear;
Elastic silicone, not tight on skin, moderate tightness;
Snap-on interface, easy to disassemble and assemble;
Can be washed and reused.

OA Series One-Piece Magnetic Silicone Strap

Material: TPU+silicon+magnet

Features: Magnetic design, easy to take off and wear;
 Integrated design provides comprehensive protection for the watch;
 Soft silicone, comfortable and durable;
 TPU watch case, disassembly and assembly will not damage the watch;
 Can be washed and reused.

GS Series Double-layer Braided Loop Strap

Material: polyester fiber + stainless steel

Features: Double-layer woven breathable fabric;
 Soft and skin-friendly, wearable for a long time without getting tired;
 Rust-resistant and corrosion-resistant 6-shaped stainless steel buckle;
 Snap-on interface, easy to disassemble and assemble.

YC Series Double-layer Braided Loop Strap

Material: aluminum alloy + nylon

Features: Made of double-layer nylon;
 Seamlessly woven, light, soft and durable;
 Hole chain structure, refreshing and breathable;
 Snap-on interface, easy to disassemble and assemble;
 Comfortable to wear.

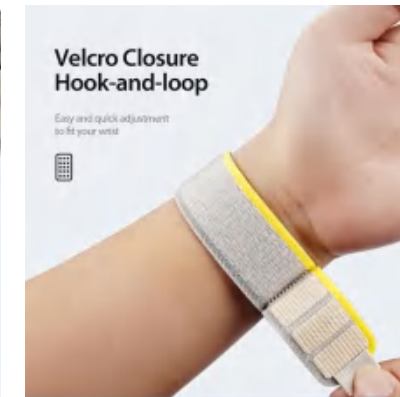

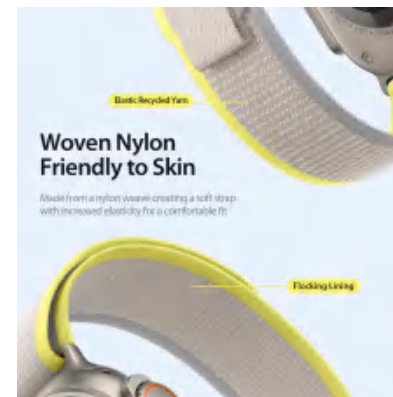

YJ Series Nylon Velcro Strap

Material: stainless steel + nylon

Features: Highly elastic nylon yarn fabric;
 Light and weightless;
 Snap-on interface, easy to disassemble and assemble;
 Refreshing, breathable and comfortable to wear;
 Velcro buckle, easy to take off and put on.

Mixture II Series Nylon Braided Strap

Material: stainless steel + nylon

Features: Highly elastic nylon yarn fabric;
 Light and weightless;
 Snap-on interface, easy to disassemble and assemble;
 Refreshing, breathable and comfortable to wear.

Mixture Pro Series Nylon Magnetic Strap

Material: zinc alloy + nylon + magnet

Features: Highly elastic nylon yarn fabric;
 Light and weightless;
 Snap-on interface, easy to disassemble and assemble;
 Refreshing, breathable and comfortable to wear;
 Magnetic buckle, easy to take off and wear.

Milanese Pro Series Stainless Steel Magnetic Strap

Material: stainless steel + magnet

Features: Magnetic design, easy to take off and wear;
 High density and high corrosion resistance SUS444 stainless steel;
 NP+CP double-layer coating, more scratch-resistant;
 Snap-on interface, easy to disassemble and assemble;
 Refreshing, breathable and comfortable to wear.

Milanese Series Stainless Steel Magnetic Strap

Material: stainless steel + magnet

Features: Magnetic design, easy to take off and wear;
Made of precision stainless steel;
Snap-on interface, easy to disassemble and assemble;
Refreshing, breathable and comfortable to wear.

Business Series Real Leather Strap

Material: cowhide + stainless steel

Features: Native cowhide, fine leather, natural color;
"Saddle stitch" hand stitching;
Rust-resistant and corrosion-resistant stainless steel buckle;
Soft, breathable and durable;
Snap-on interface, easy to disassemble and assemble.

YA Series Genuine Leather Magnetic Strap

Material: cowhide + zinc alloy + magnet

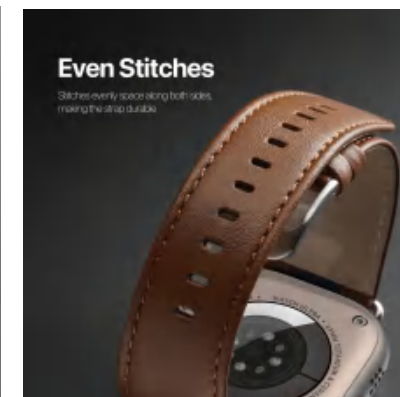

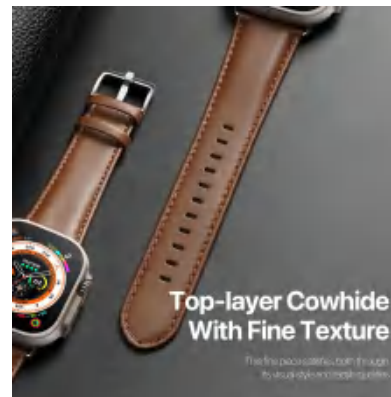

Features: Delicate leather, natural color;
 "Saddle stitch" hand stitching;
 Magnetic buckle, easy to take off and wear;
 Soft, breathable and durable;
 Snap-on interface, easy to disassemble and assemble.

YS Series Genuine Leather Strap

Material: cowhide + stainless steel

Features: Delicate leather, natural color;
"Saddle stitch" hand stitching;
Soft, breathable and durable;
Snap-on interface, easy to disassemble and assemble.

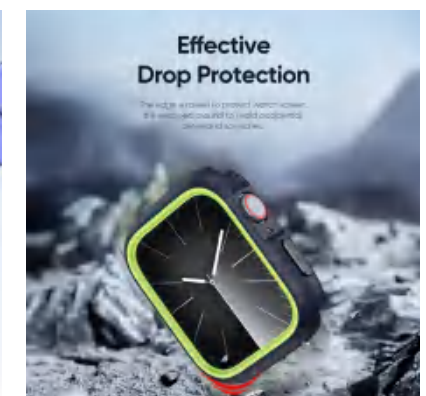

Bamo Series Protective Case

Material: TPU+PC

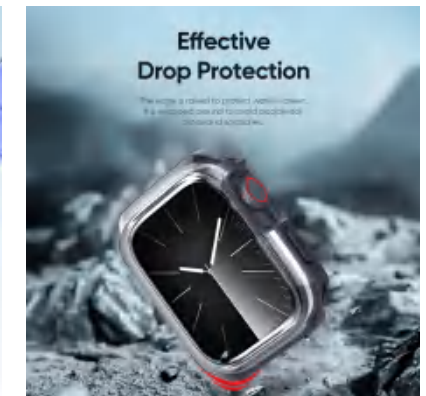

Features: Ring-shaped four corners fully covered, wear-resistant and scratch-resistant;
 The hole position is precise and does not affect the daily use of the watch;
 There is no need to remove the protective case when disassembling the watch strap;
 The back is hollow, which does not affect wireless magnetic charging;
 Easy installation.

Tamo Series Protective Case

Material: TPU+PC

Features: Ring-shaped four corners fully covered, wear-resistant and scratch-resistant;
 The hole position is precise and does not affect the daily use of the watch;
 There is no need to remove the protective case when disassembling the watch strap;
 The back is hollow, which does not affect wireless magnetic charging;
 Easy installation.

Camo Series Protective Case

Material: TPU+PC

Features: Ring-shaped four corners fully covered, wear-resistant and scratch-resistant;
 The hole position is precise and does not affect the daily use of the watch;
 There is no need to remove the protective case when disassembling the watch strap;
 The back is hollow, which does not affect wireless magnetic charging;
 Easy installation.

Damo Series Protective Case

Material: TPU+PC

Features: Ring-shaped four corners fully covered, wear-resistant and scratch-resistant;
 The hole position is precise and does not affect the daily use of the watch;
 There is no need to remove the protective case when disassembling the watch strap;
 The back is hollow, which does not affect wireless magnetic charging;
 Easy installation.

Hamo Series Electroplated PC Hard Case

Material: PC

Features: Electroplating process, fashionable and gorgeous;

360° all-inclusive protection;

Transparent cover with sensitive touch operation;

The hole position is precise and does not affect the daily use of the watch;

There is no need to remove the protective case when disassembling the watch strap;

The back is hollow, which does not affect wireless magnetic charging;

Easy installation.

Eapa Series Tempered Glass Screen Protector

Material: high alumina tempered glass

Features: 9H hardness, explosion-proof and wear-resistant;
 Full screen coverage to the edge for full protection;
 Nano-oleophobic coating, sensitive touch, anti-fingerprint;
 Full screen HD view;
 Comes with installation auxiliary tools, easy to install.

Flas Series Screen Protector With Metal Frame

Material: high alumina tempered glass + aluminum alloy

Features: Fashionable and gorgeous aluminum alloy frame;
 9H hardness, explosion-proof and wear-resistant;
 Full screen coverage to the edge for full protection;
 Nano-oleophobic coating, sensitive touch, anti-fingerprint;
 Full screen HD view;
 Easy installation.

Pmma Series Composite Soft Screen Protector

Material: TPE+PMMA

Features: Pmma composite material, high toughness, impact resistance;
 Full screen coverage to the edge for full protection;
 Nano-oleophobic coating, sensitive touch, anti-fingerprint;
 Full screen HD view;
 Comes with installation auxiliary tools, easy to install.

TWS CASE

PECA Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

PECB Series TWS Protective Case

Material: TPU

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

PECC Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

PECD Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

PECE Series TWS Protective Case

Material: TPU

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

PECF Series TWS Protective Case

Material: TPU+PC

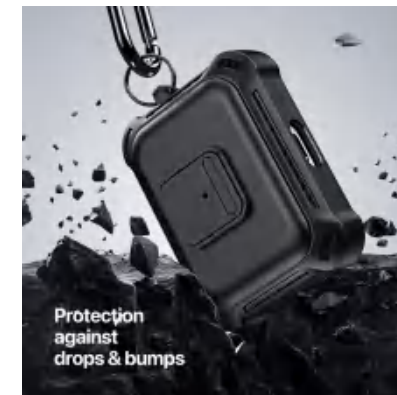

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

PECG Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

PECH Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

PECI Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

PECJ Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

PECK Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

PECL Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

PECM Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

PECN Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

PECO Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

PECP Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

SECA Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

SECB Series TWS Protective Case

Material: TPU

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
Comfortable in hand;
Open and close freely without affecting Bluetooth connection;
The hole position is precise and does not affect wired charging and wireless charging;
Split design, easy to disassemble and assemble;
Metal hook, easy to carry.

SECC Series TWS Protective Case

Material: TPU+PC

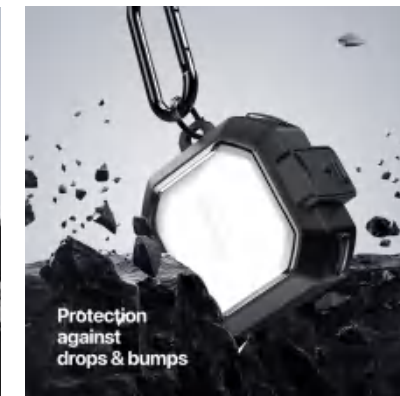

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

SECD Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

SECE Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

SECF Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

SECG Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

SECH Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

SECI Series TWS Protective Case

Material: TPU+PC

Features: Full protection for TWS earbuds, anti-fall and wear-resistant;
 Comfortable in hand;
 Pop-on switch;
 Open and close freely without affecting Bluetooth connection;
 The hole position is precise and does not affect wired charging and wireless charging;
 Split design, easy to disassemble and assemble;
 Metal hook, easy to carry.

SCREEN PROTECTORS

HAWK Series Camera Lens Protector

Material: AF+AR tempered glass+aluminum alloy

Features: Its surface has a vacuum-plated oleophobic coating, which is highly anti-fingerprint and keeps the lens as clean as new; The transmittance of AR anti-reflection film reaches 95%, restoring the high-definition pixels of the original lens; Carefully developed lens protector with 0.15mm narrow frame; It uses high-hardness tempered glass, which can easily cope with daily bumps; It is compatible with all phone cases with a big hole for the camera.

Tempered Glass Screen Protector for Mobile Phone

Material: Aluminum tempered glass

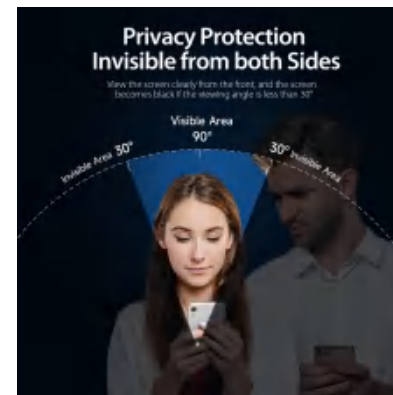

Features: 9H hardness, explosion-proof and wear-resistant;
Full screen coverage to the edge for more comprehensive protection;
Nano-oleophobic coating, sensitive touch, anti-fingerprint;
Full screen HD view;
Automatic exhaust, easy installation.

Tempered Glass Privacy Film for Mobile Phone

Material: high alumina tempered glass

Features: 30° anti-peep, high-definition visible from the front, invisible from both sides;
 9H hardness, explosion-proof and wear-resistant;
 Full screen coverage to the edge for more comprehensive protection;
 Nano-oleophobic coating, sensitive touch, anti-fingerprint;
 Automatic exhaust, easy installation.

NAAD Series Removable Paper-Like Film

Material: PET

Features: Micro-matte surface, real paper writing experience;
Nano glue-free adsorption, no damage to the screen coating;
Automatic adsorption without bubbles, easy disassembly and assembly;
Fits the screen tightly without slipping or shifting;
Washable and reusable.

Tempered Glass Screen Protector for Tablet

Material: Aluminum tempered glass

Features: 9H hardness, explosion-proof and wear-resistant;
Full screen coverage to the edge for more comprehensive protection;
Nano-oleophobic coating, sensitive touch, anti-fingerprint;
Full screen HD view;
Automatic exhaust, easy installation.

PHONE STRAPS

Plaz Series Cross-body Phone Lanyard

Material: zinc alloy + TPU + polyester

Features:

The rope is 6mm in diameter and very durable;

The length can be adjusted, ranging from 36-72cm;

It can not only be worn cross-body on the shoulder, but also hung around the neck or on the wrist;

The card and hook are strong and will not break;

The rope is skin-friendly and smooth, and it is comfortable to wear for a long time;

When charging the phone, there is no need to remove the phone case and rope.

Garden Series Cross-body Phone Lanyard with Swastika Pattern

Material: zinc alloy + TPU + polyester

Features:

The rope is 6mm in diameter and very durable;

The length can be adjusted, ranging from 36-72cm;

It can not only be worn cross-body on the shoulder, but also hung around the neck or on the wrist;

The card and hook are strong and will not break;

The rope is skin-friendly and smooth, and it is comfortable to wear for a long time;

When charging the phone, there is no need to remove the phone case and rope.

Garden Series Cross-body Phone Lanyard with Tile Pattern

Material: zinc alloy + TPU + polyester

Features:

The rope is 6mm in diameter and very durable;

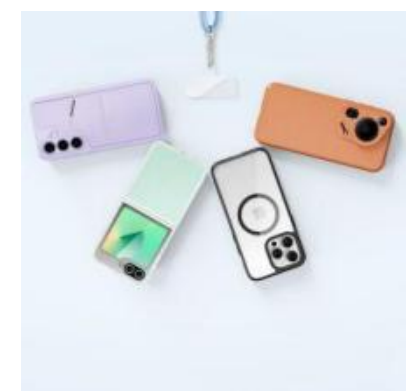

The length can be adjusted, ranging from 36-72cm;

It can not only be worn cross-body on the shoulder, but also hung around the neck or on the wrist;

The card and hook are strong and will not break;

The rope is skin-friendly and smooth, and it is comfortable to wear for a long time;

When charging the phone, there is no need to remove the phone case and rope.

Garden Series Cross-body Phone Lanyard with Begonia Pattern

Material: zinc alloy + TPU + polyester

Features:

The rope is 6mm in diameter and very durable;

The length can be adjusted, ranging from 36-72cm;

It can not only be worn cross-body on the shoulder, but also hung around the neck or on the wrist;

The card and hook are strong and will not break;

The rope is skin-friendly and smooth, and it is comfortable to wear for a long time;

When charging the phone, there is no need to remove the phone case and rope.

Garden Series Cross-body Phone Lanyard with Broken Ice Pattern

Material: zinc alloy + TPU + polyester

Features:

The rope is 6mm in diameter and very durable;

The length can be adjusted, ranging from 36-72cm;

It can not only be worn cross-body on the shoulder, but also hung around the neck or on the wrist;

The card and hook are strong and will not break;

The rope is skin-friendly and smooth, and it is comfortable to wear for a long time;

When charging the phone, there is no need to remove the phone case and rope.

Outdoor Series Multifunctional Phone Lanyard

Material: metal + nylon

Features:

Strong and durable nylon rope with metal hook;

The length can be adjusted, it can be worn cross-body or around the neck, the 2.5cm rope width is very comfortable and does not squeeze the neck;

The short rope can be removed and used as a wrist rope;

There are many hanging points on the rope, you can hang small parts of life on it, such as sunglasses, keys, small flashlights;

The metal hook is suitable for computer bags, chest bags, shoulder bags, camera bags.

OTHER ACCESSORIES

Magnetic Card Holder Wallet

Material: PU+magnet

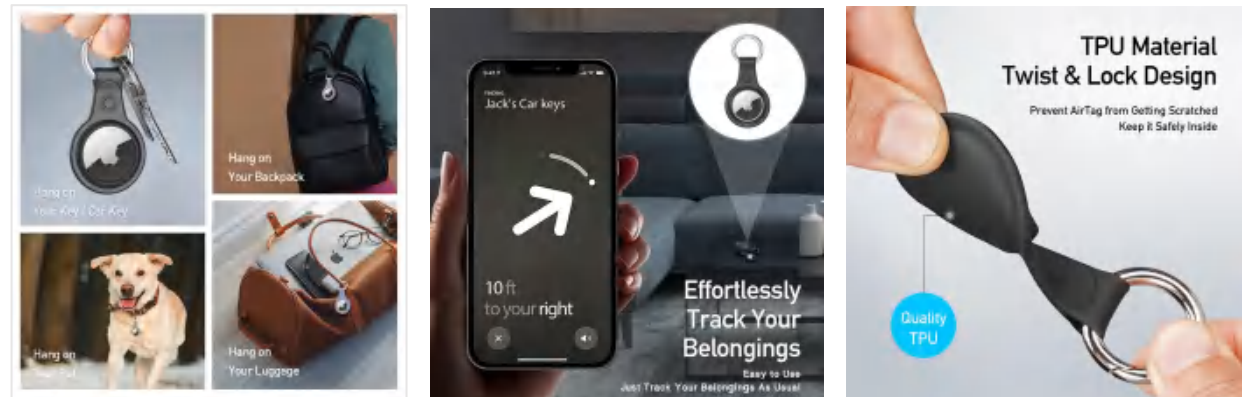

Features: With MagSafe magnetic suction function;
Can be used as a mobile phone stand to support mobile phones horizontally/vertically;
It can hold three cards;
Delicate PU leather and comfortable to touch.

AirTag Protective Case (4 Pack)

Material: TPU+stainless steel

Features: Frosted TPU, stain-resistant and durable;
 Soft material, easy to disassemble and assemble;
 Washable and reusable;
 Not easily deformed;
 Comes with hook for easy portability;
 Perfectly adapted to AirTag, does not affect signal transmission.

AirTag Protective Case (4 Pack)

Material: PC+stainless steel

Features: Precise cutouts, it perfectly fits AirTag;

Wide range of use, it can be hung on keys, backpacks, and pets;

It will not affect the signal transmission of AirTag at all;

It can provide effective protection for AirTag to avoid bumps and scratches in daily use;

There are four colors to choose from, and the colors can be mixed and matched.

Wireless Charger

W24 4in1 Wireless Power Bank

Name: 4in1 Magnetic Wireless Power Bank

Model: W24

Product size: 136*108*72 mm

Power Bank size: 106*67*9.7 mm

Product Net weight: 223g

Power bank Net weight: 107g

Input: 5.0V/2A, 9.0V/2A

Transmission distance: 3-6 mm

Color: White, Grey

Material: ABS

Charging conversion rate: $\geq 75\%$

Watch output: 2.5W (max)

Earphone output: 5W (max)

Mobile output: 5W/7.5W/10W/15W

Power bank capacity: 5000mAh / 3.85V / 19.25Wh

Power bank Rated capacity: 2800mAh

Power bank input: 18W, Output: 20W

Night light: LED

Charging interface: Type-C

Execution standard: Qi

Certification: CE ROHS UKCA FCC

W23 4in1 Wireless Charger

Name: 4in1 Magnetic Wireless Charging Stand

Model: W23

Product size: Ø 80*83 mm

Net weight: 207g

Input: 9.0V/3A

Transmission distance: 3-6 mm

Color: White, Grey

Material: ABS

Charging conversion rate: $\geq 75\%$

Watch output: 2.5W (max)

Earphone output: 5W (max)

Mobile output: 5W/7.5W/10W/15W

Night light: 4W

Charging interface: Type-C

Execution standard: Qi

Certification: CE ROHS UKCA FCC

W22 3in1 Wireless Charger

Name: 3in1 Magnetic Wireless Charging Stand

Model: W22

Product size: 135*66*21mm

Net weight: 196g

Input: 5.0V/2A, 9.0V/2A

Transmission distance: 3-6 mm

Color: grey

Material: Aluminum Alloy+ABS+Acrylic

Charging conversion rate: $\geq 75\%$

Watch output: 2.5W (max)

Earphone output: 5W (max)

Mobile output: 5W/7.5W/10W/15W

Charging interface: Type-C

Execution standard: Qi

Certification: CE ROHS UKCA FCC

W21 3in1 Wireless Charger

Name: Qi2 3in1 Magnetic Wireless Charging Stand

Model: W21

Product size: 67.6*107.2*117mm

Net weight: 175g

Input: 5.0V/3A, 9.0V/3A

Transmission distance: 3-6 mm

Color: Black

Material: Aluminum Alloy+Tempered Glass

Charging conversion rate: $\geq 75\%$

Watch output: 2.5W (max)

Earphone output: 3W (max)

Mobile output: 5W/7.5W/15W

Charging interface: Type-C

Execution standard: Qi2

Certification: CE ROHS UKCA FCC Qi2

W20 4in1 Wireless Charger

Name: 4in1 Magnetic Wireless Charging House

Model: W20

Product size: 120*90*68 mm

Net weight: 220g

Input: 5.0V/2A, 9.0V/2A

Transmission distance: 3-6 mm

Color: White

Night light: LED

Material: ABS+Painting

Charging conversion rate: $\geq 75\%$

Watch output: 2.5W (max)

Earphone output: 5W (max)

Mobile output: 5W/7.5W/10W/15W

Charging interface: Type-C

Execution standard: Qi

Certification: CE ROHS UKCA FCC

W19 3in1 Wireless Charger

Name: 3in1 Magnetic Wireless Charging Stand

Model: W19

Product size: 140*70*20mm

Net weight: 170g

Input: 5.0V/2A, 9.0V/2A

Transmission distance: 3-6 mm

Color: White

Material: ABS+Aluminum Alloy+Fabric

Charging conversion rate: $\geq 75\%$

Watch output: 2.5W (max)

Earphone output: 5W (max)

Mobile output: 5W/7.5W/10W/15W

Charging interface: Type-C

Execution standard: Qi

Certification: CE ROHS UKCA FCC

W18 Wireless Charger

Name: Magnetic Wireless Charging
Model: W18
Product size: \varnothing 58.5*7.5mm
Net weight: 59.6g
Input: 5.0V/2A, 9.0V/2.22A, 12V/1.67A
Transmission distance: 3-6 mm
Color: White
Material: Aluminum Alloy+Silicone
Charging conversion rate: \geq 75%
Earphone output: 5W (max)
Mobile output: 5W/7.5W/15W
Charging interface: Type-C
Execution standard: Qi2
Certification: CE ROHS UKCA FCC Qi2

W17 3in1 Wireless Charger

Name: 3in1 Magnetic Wireless Charging Stand

Model: W17

Product size: 121*70*130mm

Net weight: 150g

Input: 5.0V/2A, 9.0V/2A

Transmission distance: 3-6 mm

Color: Black

Material: ABS+Tempered Glass

Charging conversion rate: $\geq 75\%$

Watch output: 2.5W (max)

Earphone output: 5W (max)

Mobile output: 5W/7.5W/10W/15W

Charging interface: Type-C

Execution standard: Qi

Certification: CE ROHS UKCA FCC

W16 3in1 Wireless Charger

Name: 3in1 Magnetic Wireless Charging Stand

Model: W16

Product size: 175*125*136mm

Net weight: 290g

Input: 5.0V/2A, 9.0V/2A, 12V/1.5A

Transmission distance: 3-6 mm

Color: White

Material: ABS+Zinc Alloy

Charging conversion rate: $\geq 75\%$

Watch output: 2.5W (max)

Earphone output: 5W (max)

Mobile output: 5W/7.5W/10W/15W

Charging interface: Type-C

Execution standard: Qi

Certification: CE ROHS UKCA FCC

W15 3in1 Wireless Charger

Name: 3in1 Magnetic Wireless Charging Stand

Model: W15

Product size: 67.6*107.2*117mm

Net weight: 175g

Input: 5.0V/2A, 9.0V/2A

Transmission distance: 3-6 mm

Color: Black

Material: Aluminum Alloy+Tempered Glass

Charging conversion rate: $\geq 75\%$

Watch output: 2.5W (max)

Earphone output: 5W (max)

Mobile output: 5W/7.5W/10W/15W

Charging interface: Type-C

Execution standard: Qi

Certification: CE ROHS UKCA FCC

W13 3in1 Wireless Charger

Name: 3in1 Magnetic Wireless Charging Stand

Model: W13

Product size: \varnothing 60*8.5mm

Net weight: 46g

Input: 5.0V/2A, 9.0V/2.2A

Transmission distance: 3-6 mm

Color: Black

Material: Aluminum Alloy+Tempered Glass

Charging conversion rate: \geq 75%

Watch output: 2.5W (max)

Earphone output: 5W (max)

Mobile output: 5W/7.5W/10W/15W

Charging interface: Type-C

Execution standard: Qi

Certification: CE ROHS UKCA FCC

W10-A 3in1 Wireless Charger

Name: Wireless Charging Stand

Model: W10-A

Product size: 152*73*28mm

Net weight: 175g

Input: 5.0V/2A, 9.0V/2A, 12V/1.5A

Transmission distance: 3-6 mm

Color: White

Material: ABS

Charging conversion rate: $\geq 75\%$

Watch output: 3W (max)

Earphone output: 3W (max)

Mobile output: 5W/7.5W/10W/15W

Charging interface: Type-C

Execution standard: Qi

Certification: CE ROHS UKCA FCC

W10-S 3in1 Wireless Charger

Name: Wireless Charging Stand

Model: W10-S

Product size: 152*73*28mm

Net weight: 175g

Input: 5.0V/2A, 9.0V/2A, 12V/1.5A

Transmission distance: 3-6 mm

Color: White

Material: ABS

Charging conversion rate: $\geq 75\%$

Watch output: 3W (max)

Earphone output: 3W (max)

Mobile output: 5W/7.5W/10W/15W

Charging interface: Type-C

Execution standard: Qi

Certification: CE ROHS UKCA FCC

W7 3in1 Wireless Charger

Name: 3in1 Magnetic Wireless Charging Stand

Model: W7

Product size: 60*60*7.5mm

Net weight: 50g

Input: 5.0V/2A, 9.0V/2.2A

Transmission distance: 3-6 mm

Color: White

Material: ABS

Charging conversion rate: $\geq 75\%$

Watch output: 2.5W (max)

Earphone output: 5W (max)

Mobile output: 5W/7.5W/10W/15W

Charging interface: Type-C

Execution standard: Qi

Certification: CE ROHS UKCA FCC

W2 Wireless Charger

Name: Wireless Charging Stand

Model: W2

Product size: 69.5*137.4*17.2mm

Net weight: 148g

Input: 5.0V/2A, 9.0V/2A

Transmission distance: 3-6 mm

Color: Black

Material: ABS+Aluminum Alloy

Charging conversion rate: $\geq 75\%$

Earphone output: 5W (max)

Mobile output: 5W/7.5W/10W/15W

Charging interface: Type-C

Execution standard: Qi

Certification: CE ROHS UKCA FCC

W1 Wireless Charger

Name: Magnetic Wireless Charging Stand

Model: W1

Product size: \varnothing 60*8.6mm

Net weight: 62g

Input: 5.0V/2A, 9.0V/2A

Transmission distance: 3-6 mm

Color: White

Material: ABS+Zinc Alloy

Charging conversion rate: \geq 75%

Earphone output: 5W (max)

Mobile output: 5W/7.5W/10W/15W

Charging interface: Type-C

Execution standard: Qi

Certification: CE ROHS UKCA FCC

V5 Pro Magnetic Wireless Car Charger

Name: Qi2 Magnetic wireless car charging mount

Model: V5 Pro

Product size: 218*72*65mm

Net weight: 155g

Input: 5.0V/2A, 9.0V/2.22A, 12V/1.67A

Transmission distance: 3-6 mm

Color: Black

LED light: green/blue

Material: PC+ABS

Charging conversion rate: $\geq 75\%$

Mobile output: 5W/7.5W/10W/15W

Charging interface: Type-C

Execution standard: Qi2

Certification: CE ROHS UKCA FCC Qi2

V5 Magnetic Wireless Car Charger

Name: Qi2 Magnetic wireless car charging mount

Model: V5

Product size: Ø62.6*83.6mm

Net weight: 77.5g

Input: 5.0V/2A, 9.0V/2.22A, 12V/1.67A

Transmission distance: 3-6 mm

Color: Black

LED light: green/blue

Material: PC+ABS

Charging conversion rate: $\geq 75\%$

Mobile output: 5W/7.5W/10W/15W

Charging interface: Type-C

Execution standard: Qi2

Certification: CE ROHS UKCA FCC Qi2

V4 Magnetic Wireless Car Charger

Name: Qi2 Magnetic wireless car charging mount
Model: V4
Product size: 215*72*58.5mm
Net weight: 192g
Input: 5.0V/2A, 9.0V/2.22A, 12V/1.67A
Transmission distance: 3-6 mm
Color: Black
Material: Aluminum Alloy+TPU+PC
Charging conversion rate: $\geq 75\%$
Mobile output: 5W/7.5W/15W
Charging interface: Type-C
Execution standard: Qi2
Certification: CE ROHS UKCA FCC Qi2

V3 Magnetic Wireless Car Charger

Name: Magnetic wireless car charging mount

Model: V3

Product size: 215*72*58mm

Net weight: 145g

Input: 5.0V/2A, 9.0V/2A, 12V/1.5A

Transmission distance: 3-6 mm

Color: Black

Material: Aluminum Alloy+TPU+PC

Charging conversion rate: $\geq 75\%$

Mobile output: 5W/7.5W/10W/15W

Charging interface: Type-C

Execution standard: Qi

Certification: CE ROHS UKCA FCC

Wall Charger

T10-01 GaN Charger

Name: PD65W GaN Charger

Model: T10-01

Size: 92*48*48 mm

Net weight: 170g

Color: Black

Material: Fireproof PC

Certification: CE ROHS

Input: AC100-240V~50/60Hz 1.5A Max

Output: 2C

C1/C2 5V 3.0A 9V 3.0A 12V 3.0A 15V 3.0A 20V 3.25A

Type-C1+Type-C2: 45W+20W

Wire Length: 0.7 m

T9-01 GaN Charger

Name: PD65W GaN Charger

Model: T9-01

Size: 80*43*28millimeters

Net weight: 130g

Color: White

Material: Fireproof PC

Certification: CE ROHS

Input: AC100-240V~50/60Hz 1.6A Max

Output: 2C1A

C1/C2 5V 3.0A 9V 3.0A 12V 3.0A 15V 3.0A 20V 3.25A

PPS: 3.3-11V 4.05A 3.3-21V 3.0A (63W max)

USB-A: 5V 3.0A 9V 3.0A 12V 3.0A 20V 3.0A (60W max)

T7 GaN Charger

Name: PD30W GaN Charger

Model: T7

Size: 86*41*27mm

Net weight: 63g

Color: White

Material: Fireproof PC

Certification: CE ROHS

Charging interface: 1C1A

Input: 100-240V~50/60Hz 1.0A

Output: C: 5V 3A 9V 3A 12V 2.5A 15V2A 20V1.5A

USB: 5V 3A 9V 2A 12V 1.25A

T6 Charger

Name: PD25W charger

Model: T6

Size: 80*43*28mm

Net weight: 55g

Color: White

Material: Fireproof PC

Certification: CE ROHS

Charging interface: 1C

Input: 100-240V~50/60Hz 0.8A

Output: C: 5V 3A 9V 2.77A 12V 2.08A

T3-02 Charger

Name: PD20W charger

Model: T3-02

Size: 70*48*42mm

Net weight: 62g

Color: White

Material: Fireproof PC

Certification: UKCA ROHS

Charging interface: 1C

Input: 100-240V~50/60Hz 0.6A

Output: C: 5V 3A 9V 2.22A 12V 1.67A

T3-01 Charger

Name: PD20W charger

Model: T3-01

Size: 82*43*27mm

Net weight: 54.6g

Color: White

Material: Fireproof PC

Certification: CE ROHS

Charging interface: 1C

Input: 100-240V~50/60Hz 0.6A

Output: C: 5V 3A 9V 2.22A 12V 1.67A

Charging Cable

A11 Data Cable

Name: PD65W CtoC data cable

Model: A11

Length: 1 m

Net weight: 19g

Color: White

Material: Liquid Silicone +TPE

Wire OD: 3.8mm

Output: 20V 3.25A

Data line transmission: USB2.0 (480Mbps)

Certification: CE ROHS FCC UKCA

A10 Data Cable

Name: PD20W CtoL data cable

Model: A10

Length: 1 m

Net weight: 21.6g

Color: White

Material: Liquid Silicone +TPE

Wire OD: 3.8mm

Output: 9V 2.22A (9V 3A, 27W Max)

Data line transmission: USB2.0 (480Mbps)

Certification: CE ROHS FCC UKCA

A9 Data Cable

Name: PD100W CtoC data cable

Model: A9

Length: 1 m

Net weight: 37g

Color: Black

Material: Aluminum alloy shell+Nylon braided wire+TPE

Wire OD: 4.9mm

Output: 20V 5A

Data cable transmission: USB3.2 Gen2x1 (10Gbps)

Certification: CE ROHS FCC UKCA

USB 3.2

A8 Data Cable

Name: USB to C data cable

Model: A8

Length: 1 m / 2 m

Net weight: 24g

Color: Gray

Material: Aluminum alloy shell+Nylon braided wire+TPE

Wire OD: 3.8mm

Output: 5V 3A

Data line transmission: USB2.0 (480Mbps)

Certification: CE ROHS FCC UKCA

A7 Data Cable

Name: USB to L data cable

Model: A7

Length: 1 m / 2 m

Net weight: 24g

Color: Gray

Material: Aluminum alloy shell+Nylon braided wire+TPE

Wire OD: 3.8mm

Output: 5V 2.4A

Data line transmission: USB2.0 (480Mbps)

Certification: CE ROHS FCC UKCA

A6 Data Cable

Name: PD65W CtoC data cable

Model: A6

Length: 1 m

Net weight: 26g

Color: Transparent terminal+black braided wire

Material: high-density Nylon braided wire+PVC+transparent shell

Wire OD: 3.8mm

Output: 20V 3.25A

Data line transmission: USB2.0 (480Mbps)

Certification: CE ROHS FCC UKCA

A5 Data Cable

Name: PD20W CtoL data cable

Model: A5

Length: 1 m

Net weight: 26g

Color: Transparent terminal+black braided wire

Material: high-density Nylon braided wire+PVC+transparent shell

Wire OD: 3.8mm

Output: 9V 2.22A (3A Max)

Data line transmission: USB2.0 (480Mbps)

Certification: CE ROHS FCC UKCA

A4 3 in 1 Data Cable

Name: 3 in 1 Data Cable (100W, C to C+L+Mic)

Model: A4

Length: 1.3 m

Net weight: 68g

Color: Black

Material: Transparent terminal + TPE + aluminum alloy shell

Wire OD: 3.8mm

Output: C 5A, L 3A, Mic 2A (5A Max)

Data line transmission: USB2.0 (480Mbps)

Certification: CE ROHS FCC UKCA

A3 3 in 1 Data Cable

Name: 3 in 1 data cable (USB to C+L+Mic)

Model: A3

Length: 1.3 m

Net weight: 57g

Color: Gray

Material: Aluminum alloy shell+Nylon braided wire+TPE

Wire OD: 4.2mm

Output: C 5V3A, L 5V 2.4A, Mic 5V 2A (3.5A Max)

Data line transmission: USB2.0 (480Mbps)

Certification: CE ROHS FCC UKCA

A2 Data Cable

Name: PD65W CtoC data cable

Model: A2

Length: 1 m / 2 m / 3 m

Net weight: 23g

Color: Gray

Material: Aluminum alloy shell+Nylon braided wire+TPE

Wire OD: 3.8mm

Output: 20V 3.25A

Data line transmission: USB2.0 (480Mbps)

Certification: CE ROHS FCC UKCA

A1 Data Cable

Name: PD20W CtoC data cable

Model: A1

Length: 1 m / 2 m / 3 m

Net weight: 23g

Color: Gray

Material: Aluminum alloy shell+Nylon braided wire+TPE

Wire OD: 3.8mm

Output: 9V 2.22A (3A Max)

Data line transmission: USB2.0 (480Mbps)

Certification: CE ROHS FCC UKCA
