Company Profile

Quanxiu is a high-tech company specializing in new energy applications. Relying on the rapid development of third-generation semiconductors, to seize the change and innovation of high power density power supply industry, and quickly stand out.

The company is mainly engaged in the research and development, production and sales based on gallium nitride technology, and is in the leading position in consumer electronics, energy storage, solar inverter and other new energy industries.

The company has obtained ISO9001 quality system certification and ISO14000 environmental system certification. Our products have applied for CCC, ULCE, KC, FCC, PSE, UK CAGS, BSMI and other global mandatory certification and industry certification.

Our global partners provide services to hundreds of companies around the world, covering consumer electronics, mobile communications, smart home, automotive electronics, computers and wind and solar industries. Our services include customized R&D, manufacturing, and technical services and support.

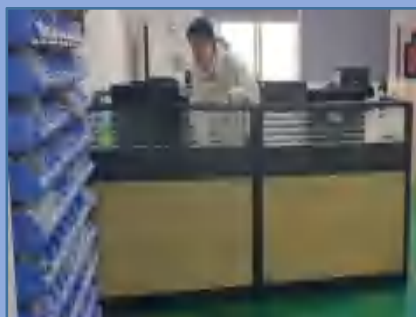

R & D

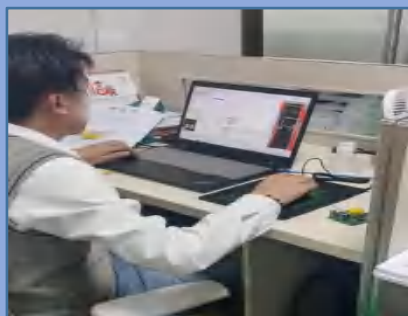

Quanxiu is currently gathered 15 main R & D engineers, engaged in switching power supply design and development work for many years, the experience of Hangjia, the Great Wall power supply, the core of the COSCO, Sunda power supply and other professional power supply development company.

At present, there are nearly 100 completed design products, more than 30 products in research and testing, and continue to carry out forward-looking technology research, can be customized for customer demand development.

The professional and efficient product design, systematic and perfect testing and verification, fine process development, and rigorous and pragmatic trial production make the perfect combination of product quality and performance in the R&D department.

30W MINI FOLDING PD CHARGER

GaN30WUSBC Foldable PDQCPPS Multi-Phase Travel Charger

POWERFUL 30W CHARGING: The charger can charge the new iPhone 14ProMax from 0-55% in 30 minutes. Supports 25W Samsung Super Fast Charging.

ULTRA-COMPACT SIZE: Breakthrough performance and incredible size are available with an upgraded GaN chip. Real-time protection: No need to worry about charging safety as temperature is scanned 800 times per second.

SUPER COMPATIBILITY: In addition to multiple fast charging protocols, this charger has compatibility for a wide range of charging. Such as headphones, cell phones, tablets and even MacBookAir.

MULTIPLE SAFETY SYSTEMS: Built-in short-circuit protection, overload protection, over-temperature protection and over-voltage protection, ready for all-around safety.

65W charger for your cell phones, tablets and notes PCs with PD3.0 high efficiency charging, supports Samsung Super Fast Charge PPS

【Multi-function Charger】 : Say goodbye to the old charger and welcome this new friend. When connecting multiple devices, power is efficiently distributed between ports to ensure a better charge.

【Smaller but More Powerful】 :Gallium Nitride technology makes our newest charger smaller without sacrificing a drop of power.

【Universal Compatibility】 :This USB C charger is compatible with iPhone, Macbook Pro MagSafe, iPad Pro, Galaxy, Pixel, Switch and more electronic devices.

【Safety & Warranty】 :Provides 7 smart safety charging protections such as over-voltage protection and overload protection, adjustable power output to protect connected devices.

65W 2C1A FOLDING CHARGER

Suitable for use in iPhone, Samsung Galaxy, MacBook Pro/Air, Chromebook, GalaxyBook, XPS 13, Pixelbook, Surface, iPad Pro, Steam Deck.

【Ultra Compact 65W Charger】 Convenient for travelers and business travelers.
【Minimal and Cube Design】 58*30*35mm. cube shape 65W charger won't fall off from the wall socket.

【High Speed Charging】 Charge your MacBook Air2020 in less than 2 hours, charge your MacBook Pro at full speed 13 inches, charge your smartphone 3 times faster. Or charge Samsung cell phones with super fast charging (PPS).

【Travel Device】 Easy to carry and avoid scratching other items in your bag. The perfect travel companion for all your charging needs, no matter which cable you have.

【GaN Technology】 With GaN, USB-C PD 3.0 and PPS charging technology is smaller in size, maximizing charging efficiency while generating less heat and not overheating or overcharging Apple and Samsung devices.

USB-C PD Charger USB 3.0 Port HDMI Expansion Dock

Name: PD45W /PD65W/PD100W

【Powerful HUB Dock】 The HUB dock has one USB-C port, one USB-a port, and one HDMI port, which can provide 65W watt to the device and has 4K@60Hz resolution.

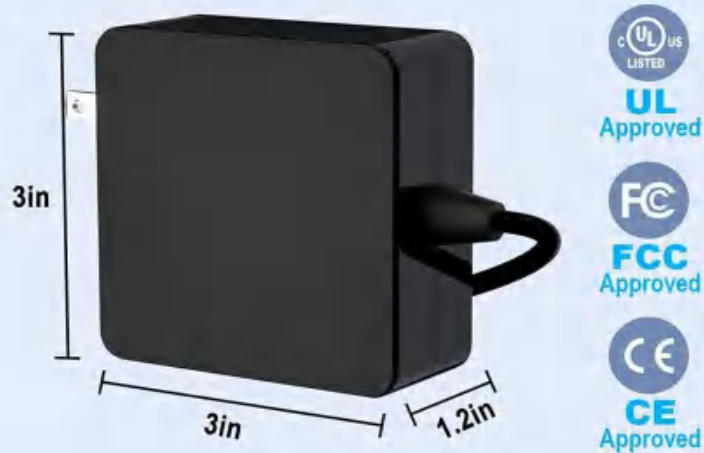

【4K@60Hz HDMI Port】 HDMI allows you to connect your Switch to large displays with up to 4K resolution while gaming. This allows you to enjoy a better gaming experience on a large TV, monitor or even a projector. When working, simply connect the charging dock to your laptop to easily display presentations on the screen.

【65w PD Fast Charging】 Built with the latest GaN technology, the charging dock is smaller, more efficient, and offers better performance and heat distribution. It supports the latest 60w PD technology to easily and quickly charge demanding devices including laptops, cell phones, tablets and all other power-hungry devices.

【Compact and Powerful】 Multi-functional Charging Docking Station, a credit card-sized docking station of only 123g (4.34 oz), perfect for carrying around or traveling. Throw it in your bag and go. It cleverly replaces the official docking station and a separate charger.

【Working Mode】 This docking station not only benefits Switch players, but also commuters and people who work from home. USB-C and USB-A support power charging, connecting to monitors, TVs and fast data transfer. The USB-A 3.0 port can also be used as a dock for connecting a Pro grip, keyboard and mouse.

USB-C Adapter for Mac Book/HP/ Lenovo Thinkpad/Dell

90° folding pins for easy storage

5.9ft USB C charging cable

Model:PD65G Optional built-in 1.5 meter emark Type-C charging cable/standard type-C output port

【Fast Charging and Safety】 - USB-C fast charger can automatically recognize your device, our USB type-c charger adapter has multiple protection safety features, including over-current protection, over-voltage protection, over-temperature protection, overload protection, short-circuit protection and leakage protection.

【WIDE COMPATIBILITY】 - This 65W USB laptop charger with Mac Bookpro 13 inch 2016, Mac Book Air 2018, Dell Latitude, Lenovo, HP Spectre, Think pad, Nintendo Switch Samsung Chrome Book pro, Acer Spin 7i Pad pro 2018, and other smartphone devices with USB-C port.

【Super Compact and Durable Charging Cable】 - The charging cable passes more than 10,000 times swing test, it can withstand any angle of bending and daily wear and tear, super long bending life. Stylish appearance and tangle-free cable design gives it great value.

100W USB-C 4-Port GaN PD PPS WALL DESTOP CHARGER

| Name: PD100B | Name: PD100C |
|---|-----------------------------------|
| Port: 2C2A | Port: 3C1A |
| Size: 73mm*73mm*28mm | Weight: 175G |
| *100W maximum fast charging | *Wide range of compatible |
| *Portable, compact design | *4-in-1 multi-port charger |
| *Complete safety and reliability | |

Single Port Output

| | | | | | |

(PD100W Max) (PPS:3.3V-11V/5A)

100W PD3.0 PPS 2-port GaN FAST CHARGER

【PD3.0 100W Total Output】 With a maximum power output of 100W, it enables compatible devices to charge faster than the industry standard.

【Latest [GaN] chip technology- It provides double the power density and reduces power loss by 80%, which also means improved power efficiency.

【2-in-1 Fast Charger】 This 100W GaN charger is capable of simultaneously powering 2 laptops or 2 smartphones/tablets at the same time and can fulfill all charging needs.

【Mini Compact and Portable】 The travel-friendly design ensures maximum portability whenever and wherever you go.

Maximum portability. Convenient for home, office and any other place.

【Safe and Reliable Cell Phone Wall Charger】 Equipped with advanced circuit protection and multiple protections against overcharging, overcurrent and high temperature damage.

PD 3.1 GaN 140W 28V/5A PD CHAREGR

140W 3C1A 4-Port PD Fast Charging GaN PPS Desktop Charger

***MacBook Super Fast Charger:** uses PD3.1 protocol, single port to pump to MacBook Pro 28V/5A 140W power.

***4-in-1 Multi-Port Charger:** 3 USB-C ports and one USB-A port simultaneously power two laptops and 2 cell phones at the same time, fast enough for multi-device technology users.

***Wide range of compatibility:** Fast charging for a wide range of devices: MacBook Pro 13"M1 2020, MacBook Air 2020, Dell XPS 15/13, HP Spectre, iPad Pro, iPhone 1Galaxy S23 Ultra/S22, Switch, Steam Deck and more.

***Long-term life and safety:** The power splitter system intelligently regulates power output to protect device batteries and increase battery life. ThermalGuard system scans temperature 800 times per second to protect your device from overheating.

***Smaller Size, Best Efficiency:** Revolutionary GaN technology reduces size by 22% compared to the original 140W charger.

size has been reduced by 22% compared to the original 140W charger. This means a more portable charger in the palm of your hand without sacrificing power!
