# About us:

---

Our factory is located in Quanzhou City, Fujian Province, renowned as China's textile hub and Silk City. With a rich history in textiles, the region boasts deep industry roots, large-scale production, a concentrated and complete supply chain, and strong technical expertise. Notably, we excel in the production and processing of cotton and bamboo fiber, offering outstanding advantages in both technology and cost.

Established in 2005, we produce approximately 9 million textile and apparel items annually, supported by a dedicated team of 157 employees and 93 machines, including 70 sewing machines. Initially, we focused on manufacturing premium baby apparel, bedding, and towels for the Japanese market. This commitment to excellence has shaped our corporate culture, which continues to thrive today.

Our skilled production team, well-trained workforce, and rigorous quality control have laid a solid foundation for serving discerning clients in high-end markets across Europe and North America.

We didn't stop there. Over the years, we have relentlessly upgraded our supply chain, optimizing raw material quality, safety, environmental sustainability, and corporate management. In 2019, our efforts culminated in achieving the stringent GOTS certification, officially recognizing us as a full-chain organic baby apparel manufacturer.
