

Solar LED lantern light

Solar LED lantern light

product number: FP-WSD-02
lighting type: LED, power:5W
size:10*10*14cm (closed status)
continuous lighting time: 10 hours
lamp cover material: ABS plastic
battery type: Lithium battery
weight: 275g, surface color: antique-bronze, blue, dark green
origin: china
outdoor sports items: solar LED camping lighting
lighting radius (m): 30M
lighting way: lantern and flash
power: solar charging/AC charge

Technical parameters

Model No.: FP-SBSS-7W/9W
lighting type: LED, power:7W/9W
bulb:62*62*100mm
continuous lighting time: 3 hours
lamp cover material:PC+ABS plastic
battery type: Lithium , 900mAh
lighting radius (m): 10M
power:solar charging by 10hours

Model No.: FP-SBSR-12W/15W
lighting type: LED, power:7W
bulb:76*125mm solar:60*60*110mm
continuous lighting time: 4 hours
lamp cover material: PC+ABS plastic
battery type: Lithium , 1200mAh
lighting radius (m): 10M
power:solar charging by 10hours
With remote controller

COMPANY PROFILE

First international industrial Ltd. is a professional manufacturer which specializing in producing LED products and new energy applied products, we have 5 division factories located in different city in south of China, we are now producing 3 categories of products: energy saving LED lighting, solar appliances & lighting. We continue to research and innovate LED and solar application base on traditional technology, form the special traits of our products.
We can provide customized products & service, also we can do B2B or B2C and OEM or ODM service. We have 5 manufacture bases in Zhongshan city and zhuhai city, we apply JIT (Just in time) production system and ISO9001 quality system in whole production process, so assurance the production quality and high efficiency. We focus on continue to optimize process and improve the products quality, to realize the best competition in market.
First industrial Group has 5 subsidiary factories, the total workshops area of 41000 square meters.
Our commitment is supplying the most valuable LED and Solar appliance to all customers. Comparing with other factories in China, we have below advantages compare to others:

1. 12 years industrial experience.
2. Competitive price and stable quality. We have our own die-casting workshop, plastic injection workshop, CNC machining workshop, stamping workshop, SMT line, reflow soldering line, most of the components and parts are made by our own factory, it is easy to control the cost price and material quality.
3. Big and Professional R&D team. Every month have new designs, any new model design or mould design services customized.
4. Short delivery time and big production capacity. We have more than 10 assembling line.
5. Stable and high quality. Professional QC and QA team, we have regular patrol-inspection during production process and QA sampling inspection before shipment.

6. The factory get through ISO9001:2008 quality system standards, most of the products have CE, UL, BIS, TIS Certification.
First industrial Ltd. welcome the customers around world to visit us and use our Green appliance with clean & nature energy.
+LED lighting & light parts (First "EYE" brand LED lighting): LED landscape lighting, LED spot light, LED well washing lights, highway lights, spot lights, fountain lights, buried lights, underwater lights, Ceiling light, LED street lamps and so on.
+Solar appliances & tools (FIRST Polite brand solar lighting): Solar street lamp, courtyard lamp, lawn lamp, camping light, reading light, solar torchlight, solar recharger, solar flower lights or flower light strings.
*First enterprise vision: Create more Green & useful lighting appliance for human.
*First enterprise operation principle and value view: people oriented, honesty foremost, innovation ahead brand&quality first, realized customers supplier employee going well with enterprise, growing together!

PRODUCTS CATEGORIES:
LED flood light & Housing
LED high-bay light & Housing
LED tube light
LED panel light & Parts
LED down light & Housing
LED ceiling spot light
LED streetlight & housing
Solar LED lighting /solar streetlight/solar floodlights

Solar power kit system

Product name: mini portable solar power system kit

Model number: FP-SS-LTM4W

Size: mini

Application: home lighting, iPad charging, phone charge

[Name] solar home lighting power system

[Solar panel]: 4W 11V

[Battery]: Lithium cell 7.4V/2600mAh

[LED bulb]: 2W/pcs*2pcs

[Wire length]: 5 meter

[Working time] : 10 hours above.

Solar panel kit weight: 1.45kg

Quality guarantee: 1 year

Place of origin: Guangdong, China (Mainland)

Brand name: First or OEM for customer

Model No.: FP-SSFL-28

Solar panel: 5.5V 90mA poly

Battery: 3.7V 1200mAh Li-battery

Light source: "2835" SMT LED chip: 28pcs

Light source power: 2.5W

Charge time: 8H

Working time: >12 hours

Plastic material: ABS, PC

Switch: auto.

Sensing method: light sensitive, infrared body sensor

Sensing distance: 3-5m

IP grade: IP65

Lumen: 120

Products size: 135*107*55mm

Weight: 149g

Packing quantity: 100/box

Net/gross weight: 14.4/16kg

Control mode: brightness* PIR motion sensor

website: www.polite-first.com

Smart solar LED floodlight

Technical parameters

Solar LED floodlight with brightness sensor, smart turn on/off, and remote control,
Optional power:
10W / 25W / 30W / 40W / 50W/60W/100W

Product model: FP-SLFL-10W (10W)
working time with full charge: 12 hours:
A grade 10 Watt Solar Panel

Battery: 5AH lithium battery
light lamp body size: 110mm*130mm*40mm
solar panel size: 230mm*340mm
big led Chip beads: 25 pcs;
accessories 5 meters waterproof wire /U frame / timing remote control / expansion screws

New design smart solar floodlight

New Solar LED floodlight with brightness sensor, smart turn on/off, and remote control,
Optional power:
60W/100W/150W

Product model: FP-SLFL-60W (60W)
working time with full charge: 12 hours:
A grade 25W Watt Solar Panel

Battery: 20AH lithium battery
light lamp body size: 110mm*130mm*40mm
solar panel size: 230mm*340mm
big led Chip beads: 40pcs;
accessories 5 meters waterproof wire /U frame / timing remote control / expansion screws

Smart&onebody solar LED streetlight

Onebody Solar LED street light with brightness sensor, smart turn on/off by infrared detector,
Optional power: 5W / 10W / 15W / 20W / 25W / 30W / 50W /60W 80W/100W/120W

12V/8W lamp size: 460*226*50mm (monocrystal solar panel)Lithium cell 8.4V, 4.4AH PWM Chargeable, under effective sunshine for 6 hours, stand for 3-7 cloudy or raining day. Motion sensor +brightness sensor setup upon the request

Smart&onebody solar LED streetlight

Onebody Solar LED street light with brightness sensor, smart turn on/off by infrared detector sensor,
Optional power: 20W / 40W / 60W

PWM Chargeable, under effective sunshine for 6 hours, stand for 3-7 cloudy or raining day.(2 type:reflector or lense beam)Motion sensor +brightness sensor setup upon the request

Emergencv bulb light (intelligent rechargeable)

Application: emergency led bulb light with built-in battery, using in the way as normal home house, office, warehouse, corridor, aisle, in some case of no city electricity, it's inside battery continuously to light for 4-6 hours.

Power: 3W/5w/7w/9w/12w
Input Voltage: AC 85-265V 50/60Hz
CRI: >70 or >80* Driver: First
LED chip mode: SMD
Lamp Life: 30,000hrs to 50,000hrs
Lumens: 80Lm~130Lm/watt
Beam Angle: 180° /230°
Color Temp: 2700K/4000K/6500K
Warranty: 1 or 2 Years Warranty

LED T8/T5 tube light

Power: 9w/14w/18w/22w/36w/48W
Input Voltage: AC 85-265V/90-120V
CRI: >70 or >80,
connector:G13/Fa8
Driver: FIRST /Brand
LED chip mode:SMD
Lamp Life: 30,000hrs to 50,000hrs
Lumens: 80Lm~120Lm/watt
Beam Angle: 180°
Color Temp: 2700K/4000K/6500K
IP rating: IP44
Length:0.6m/0.9/1.2m/1.5m/2.4m
Certifications:CE/RoHS/FCC- Warranty: 2 to 3 Years Warranty

LED STREETLIGHT

[Light Name]: Various LED energy saving street light
[Power]: 50W-300W
[Height]: 4m-10m
[Application]: street, bridge, park, plaza, countryside road

LED Floodlight

Technical parameters

Power: 200W/300W/400W/500W/600W
Input Voltage: AC 85-265V 50/60Hz
CRI: >70 or >80
Driver: Nishida/Done/MEANWELL
LED chip mode: SMD
Lamp Life: 30,000hrs to 50,000hrs
Lumens: 80Lm~130Lm/watt
Beam Angle: 90°/120°
IP rating: IP65
Color Temp: 2700K/4000K/6500K
Certifications:CE/RoHS/FCC/UL
Warranty: 2 to 5 Years Warranty
•200W size:410x350x75mm,
•300W size: 575x350*75mm,
•400W size: 665*370*75mm
•500W size:665*455*75mm,
•600W size: 665*535*75mm.
