

Zhongshan Hemeida Technology Co., Ltd.

Global Leader in One-Stop Fashion Digital Accessories & Bag Manufacturing

Brand Legacy: 2011 - 2026

2011

Founded as Guangzhou Guaner Electronics, focusing on R&D and manufacturing of core digital products.

2012 - 2018

Global business expansion and establishment of a stable global client network.

2019

Started the era of "Phone Case Injection + Bag Sewing" vertical integration.

2020 - Present

Mature Stage. Building one-stop supply chain services as a powerful and reliable global supplier.

Real shot of Hemeida's modern production workshop

Core Strength: Dual-Factory Manufacturing System

Save Communication Costs

Internal synergy eliminates supplier barriers, shortening order confirmation and response cycles significantly.

Control Production Costs

Vertically integrated supply chain cuts middle-process waste; scaled manufacturing maximizes profit margins for clients.

One-Stop Eco-Branding

Matched design and production for phone cases and bags to build unified brand ecosystems.

Professional Design & R&D Capabilities

Design Team Transforms Ideas into Products

Our professional design team meets diverse customization needs, from specific packaging requirements to creative design conversions, ensuring every idea becomes a high-quality reality.

R&D Team Leads Market Trends

Continuous innovation and market research ensure our products remain fresh and attractive. We lead the industry with advanced materials and manufacturing technologies.
