# World's Thinnest Battery Pack

7.6mm

## X.One® Razor Magcharge Product Features

### Snap and Charge

Just snap the powerbank to your device and charging will begin automatically.

### Safe For Your Battery

NTC temperature sensor optimizes charging speed in real-time, preventing overheating and preserving battery health.

### Airline Safe

In line with international flight carrying standards. Travel worry free!

### Improve Heat Dissipation

Made with aluminium alloy exterior promotes rapid heat dissipation ensuring the battery pack remains less hot when in use.

# X.One® 65W GaN<sup>6</sup> Turbo

Product Features

# Stay Charged Stay Connected

Reliable Power Accessories for Every Need

## Power Ai Distribution

Intelligently detects your device's max charging capability and distribute the right amount of power to safely fast charge it.

## Climate Control Cooling System

Achieve cooler charging with a built-in cooling structure that actively transfer and dissipate excess heat throughout the charger's surface.

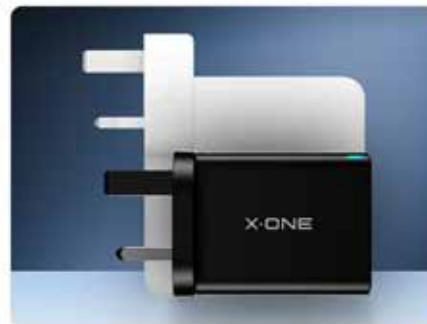

## Secure Fast Charge

Ultra fast charging from 0-80%, then slows down to trickle charge until fully charged. Safeguard and prolong your battery life.

## Compact Size

54% smaller size compared to the original 61W Charger.

# Power and Convenience in One

Built-in Kickstand, Perfect for hands-free viewing on the go.

## X.One® EZ Magcharge Powerbank Product Features

### Built-In Kickstand

Charge and view hands-free with the built-in kickstand, supporting both horizontal & vertical charging.

### Airline Safe

In line with international flight carrying standards. Travel worry free!

### Built-In Cable Lanyard

Wear it or attach it to your bag for easy access.

### Strong Magnetic Absorption

Powerful magnetic suction ensures a firm and stable connection, keeping your device securely attached while charging.

Over Current Protection

Over Voltage Protection

Temperature Control

Overcharge Protection

# Ultra Thin Magnetic Charger

Optimized for iPhone & Android - Charge without Compromise.

## X.ONE® Qi2 Mini Wireless Charger Product Features

### 15W Fast Charging

Enjoy 15W fast charging for a quicker, more efficient energy boost.

### 7mm Ultra Thin

Ensures a sleek aesthetic without compromising on powerful wireless charging performance.

### Qi2 Official Certification

It has been thoroughly tested to deliver exceptional safety compatibility, rapid charging and dependable quality.

### Improved Heat Dissipation

Made with aluminium alloy exterior promotes rapid heat dissipation.

# Built-In Cable Tangle Free

Built-in USB C Cable easy to carry and lightweight.

## X.One® NanoGo Powerbank Product Features

### PD35W Fast Charging

Enjoy ultra-fast 35W charging in a compact design. The powerbank intelligently optimized output for speed, safety and battery life.

### 10,000mAh Battery Capacity

Stay powered all day with a 10,000mAh battery-perfect for travel and daily use.

### Smart LCD Display

Easily monitor battery level and charging status in real-time with the LCD display.

### Smaller Than Credit Card

Ultra-compact and smaller than a credit card, fits effortlessly in your pocket while delivering reliable power on the go.

 From 0-57% in 30 Minutes\*  
Tested on iPhone 15

# Unbreakable Hybrid Polymer

Screen Protector with 7X Impact Protection

Powered By Impact Fusion™ Technology

Our signature Extreme and Armorvisor impact protection screen protectors are made from the ultra-durable hybrid polymer material - the very same material that is trusted to shield military helicopter blades.

Built into our best selling Extreme™ and Armorvisor™ series screen protectors, Impact Fusion™ provides advanced impact protection and it does not crack like ordinary tempered glass during impact, making X.One® the best screen protector to protect your screen for a longer period of time.

## What is Impact Fusion™?

An advanced multi-layered structure that acts as a dampener, effectively absorbing and dispersing shocks to minimize single-point impact damage that could crack your screen. It provides up to 7X impact protection of an original screen.

1. Super-hydrophobic and Oleophobic coating

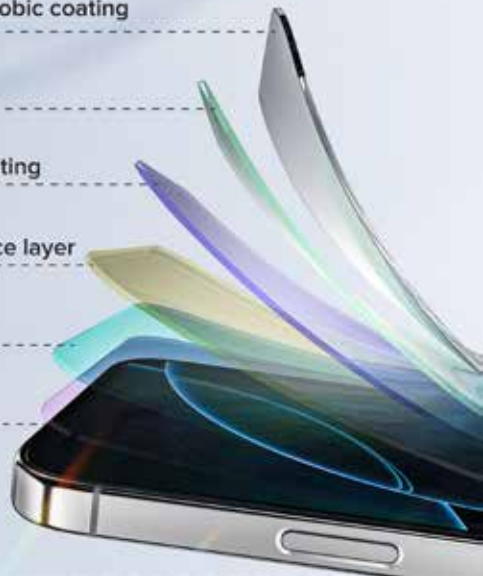

2. Shock dispersive layer

3. Enhanced scratch resistant coating

4. 7X Reinforced scratch resistance layer

5. Scratch resistance layer

6. Silicon Adhesive Layer

## IMPACT PROTECTION SCREEN PROTECTOR WITH INSTALLER KIT

### FOR EVERYDAY USE

**EXTREME 8H WITH INSTALLER KIT**  
Breakthrough in coating technology. The surface feels like glass, yet unbreakable. Up to 7X Impact Protection with enhanced scratch resistance.

### FOR AVID MOBILE GAMERS

**EXTREME 8H MATTE WITH INSTALLER KIT**  
Perfect for avid mobile gamers. Smooth surface with anti-fingerprint feature. HD matte surface with less grainy effect.

### FOR EYE PROTECTION

**ARMORVISOR WITH INSTALLER KIT**  
REAL Anti-BlueLight screen protector without purple/blueish tint, with Optic Defense filtering up to 90% harmful blue light.

### FOR AVID MOBILE GAMERS WITH PRIVACY

**360° PRIVACY WITH INSTALLER KIT**  
Anti-peeping matte surface ensures screen privacy while resisting fingerprints. Protect your screen from prying eyes in top, bottom, left and right angle ensuring you get all-around privacy protection.

# 360° Privacy Screen Protector

X.One® 360° Privacy Anti-Peeping

## Anti-Glare

Enhanced viewing experience with reduced reflection under bright conditions.

## Privacy + Matte Anti-Fingerprint

Anti-peeping with matte surface giving you a screen privacy and putting fingerprint stains away.

## Four-Way Privacy Angle

Protects your screen from prying eyes in top, bottom, left and right angle ensuring you get all-around privacy protection.

## Enhanced Gaming Experience

Long-lasting smooth and super-responsive touch, allowing you to focus on the game.

# Eye Protection Screen Protector

X.One® Armorvisor 4th Gen Clear

## Blue Light Filter

Enjoy extended screen time with optimal eye comfort and uncompromised display quality. Safe for kids.

## No Purple/Blueish Tint

Retain your screen clarity unlike any other Anti-Blue Light screen protector in the market which comes with purple/yellowish.

## EYE PROTECTION

Optic Defense layer in Armorvisor blocks out 90% harmful blue light emitted from your device to reduce the level of discomfort while using your device.

## 7X Impact Protection

Powered by Impact Fusion™ Technology - an advanced 6 layers of structure that is able to absorb and disperse shock effectively with up to 7X Impact Protection.

# Clear HD Screen Protector

X.One® Extreme 8H 5th Gen Clear

## Hybrid Polymer Material

Our signature Hybrid Polymer, made from a proprietary blend of TPU and PET material, therefore will not deform or crack upon bending.

## 7X Impact Protection

Powered by Impact Fusion™ Technology - an advanced 6 layers of structure that is able to absorb and disperse shock effectively with up to 7X Impact Protection.

## Ultra Smooth Surface

Now 40% smoother compared to the previous generation. Experience a smooth and easy cleaning just like with glass protectors.

## LotusFX™ Glass Coating Inspired By Nature

A proprietary coating with a hydrophobic surface inspired by the lotus leaf, giving you the smoothness and scratch resistant properties of a glass protector.

# Matte Gaming Screen Protector

X.One® Extreme 8H 5th Gen Matte

## Upgraded Cutting

Seamless coverage design on the dynamic island without any holes or cut opening. Ensuring a flawless finishing without affecting your Face ID.

## Puncture Protection

The Stretch Resistance Layer, creates protection against sharp objects from piercing through the screen protector.

## Enhanced Gaming Experience

Give you a smooth touch screen gaming experience.

## High Definition Matte

Does not make your screen look grainy or greyish.
