

ShangHai Tent Technology

Company profile

Shanghai Tent Technology is a modern enterprise specializing in the design, production, and international sales of outdoor tents, shelters, and event furniture. With a strong foundation in internet-based and new media marketing, we deliver comprehensive solutions for outdoor events, commercial storage, glamping, and customized applications.

Backed by our own 80,000 ㎡ tent manufacturing facility with over **20 years of experience**, we cover almost every component of tent production — from steel tube processing to fabric sewing, accessory molding, and carton packing. This vertically integrated system allows us to offer **cost-effective**, **high-quality**, and **highly customizable** products.

We uphold strict quality standards with in-house material testing labs and continuous process improvement, ensuring every tent delivered meets the expectations of durability, safety, and style.
