

AIR FRYER

COOKING FIRES WITHOUT THE OIL

HEALTH • SIMPLE • FASTER

Multi-functional and versatile, for frying, baking, grilling and roasting with little-to-no oil added.

Great for traditional French fries and Onion rings.

Powerful air frying technology with rapid hot air circulation system gives your food a crispy fried finish.

Cooks the perfect steaks, roasted potatoes, vegetables, and much more.

No oil smell, no splatter, no mess.

Using rapid hot air convection cooking technologies, the Air fryer reaches an internal temperature of up to 200°C and evenly circulates hot air to cook chicken wings, French fries and onion rings with the same crunchy exterior and moist interior produced by conventional deep fryers. You can also use the Air fryer to bake or broil meats, vegetables, cake and pizza.
