INTRODUCTION

- ISO9001 & NQA
- National High-Tech Enterprise
- Shenzhen High-Tech Enterprise
- AAA Credited Enterprise
- Shenzhen Growth Initiative Project Enterprise
- Shenzhen 500 Most Promising Enterprises
- Quality Trusted Products
- Shenzhen Most Influential Brand
- Alibaba 18 years Supplier
- Alibaba Verified Top Supplier
- CE, FCC, BIS, RoHS, KC, EUP, GS, UL, C-TICK, CB

OUR STRENGTH

Production Facilities

600+ Staff

Production Facilities

**10 High-speed
SMT Lines**

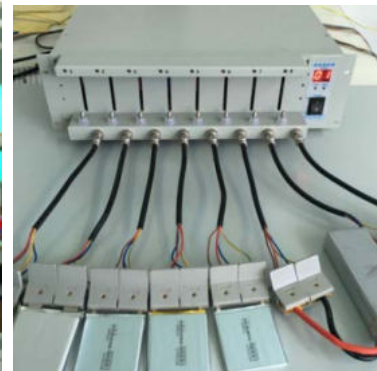

6 Assembly Lines

Production Facilities

Sophisticated Testing Equipment

20 Quality Control Processes

- Lead-free environmental testing of raw materials
- Ear hole plugging test 5000 times
- ABS+PC housing friction test
- 50,000 keystrokes point control test
- PCB motherboard wire impedance testing
- Battery 100 cycles charge/discharge test
- Battery capacity stability analysis
- PCB motherboard solder paste X-ray inspection
- Fuji High Speed Mounter
- BGA X-ray machine inspection
- TP light transmission test
- Ear hole, USB hole, charging hole destructive torque test
- High and low temperature aging test for finished products
- Simulation of the vibration state of the finished product
- HDMI sync display test
- Bar code, QR code marking monitoring
- Finished product 8 hour charge and play ageing test
- Record of net weight of product before sealing
- Fully automatic plastic sealing of products
- Drop test on finished product
