★★★★★ Good quality.

Reviewed in the United States on February 15, 2026

Color: PINK Dark grey - Verified Purchase

I was looking for a gift for my brother, and since he loves camping and spending time outdoors, I decided to get him this lightweight hydration backpack. It turned out to be a great choice.

He really loves it and has already used it on a few trips. The backpack is actually bigger than I expected, which ended up being a good thing because it has enough space to carry extra items along with the water bladder. It feels comfortable to wear and seems very practical for hiking, camping, or any outdoor activity.

Overall, it does the job perfectly and my brother is super happy with it. I would definitely recommend this backpack as a gift for anyone who enjoys being outside.

Great Fit/Well Made

Reviewed in the United States on November 25, 2025

Color: Army Green-2 - Verified Purchase

I bought 3 of these hydration packs for gifts and am thrilled! They are beautiful colors, very light and infinitely adjustable and stay in place while running/hiking. I'm ordering one for myself now!

OK. I got my own pack and wore it today to test it out- everyone needs one of these packs! Being a mountain biker and hiker I have had many hydration packs over the years and have always bought an expensive brand, but know now it's not necessary. This pack is so light and sturdy and the water tube and mouth piece work well. The bladder is easy to clean and fill. The shoulder straps are comfortable and the whole thing is like wearing a comfortable vest. There is plenty of room for storing an extra windbreaker plus a lunch and extra water holders and pockets. It looks exactly as shown. This is a great value - you won't be sorry!
