

About us

Jinan May Flower Household Goods Co., Ltd has been in the promotional product and trade show giveaway business for around 10 years. While our competitors have attempted to lower the cost per order by unqualified raw materials and lower human cost, we have taken the approach of building long term relationships and offering unique and creative promotional products and trade show promotional items at highly competitive costs. Our sales people average over 15-years experience in the custom imprinted promotional product industry and we know our promotional items and trade show giveaways!

Give us a call and let us know about your company, the type of trade show or conference you are attending and we can come up with fun and unique tradeshow giveaways.
