2Years of cross-border production
experience in Vietnam.

Main business: Kids camera,
Instant print camera, AI products,
Color Print Camera, Digital camera,
Action camera, night vision device
dash cam, pocket camera

Source
manufacturer

Quality
Assurance

6 Reasons for why choose us:

1. We are more **Professional** on camera products & AI products
16 years of focus on camera products self-developed, cover 90% of chain supermarkets and 40+ countries worldwide
2. Our factory has more complete **Qualifications**.
We have ISO9001 and ISO14001 to ensure quality / environmental system, meanwhile we also have Disney FAMA, BSCI, Sedex, NBCUniversal, GSV Audit
3. We have a larger factory Scale and **Production capacity**.
10,000 m² of self-owned factory and 6,000 m² of rented factory, 200 workers and 10 production lines, Daily production capacity exceeds 10k+ cameras
4. Stronger **R&D capabilities** and supply chain, leading the industry
More than 15 Engineers, 20 R&D patent products per year, from ID design, Internal structure, Software customization, Molding, SMT, Injection, Production
5. We have a better **Reputation** in this field
Due to the trust of Walmart, Costco, Aldi, Mediamart, Target, SMYTHS, Toys "R" Us, Disney, Bandai etc, we developed better quality control and production delivery capability
6. We have better **Service** and faster response times.
For the after-sales, our team will respond within 24 hours and provide a solution within 48 hours.

KDC-0019B

KDC-0019M

XJ006B

A4 Printer

KDC-0019F

KDC-0019L

Common Printer

- ✗ Large volume bulky and occupying space affecting aesthetics
- ✗ Frequent replacement of consumables: changing ink cartridge changing printhead
- ✗ Complex structure with high failure rate
- ✗ The operation is complex and after using it once you will eat dirt
- ✗ There is dust and odor which is not environmentally friendly

Portable thermal printer

- ✓ Compact and unplugged
- ✓ Supports Bluetooth connection
- ✓ Ink free printing just change the paper
- ✓ Simple structure stable and durable low maintenance cool
- ✓ Easy to operate one click printing on mobile phone

VS

Tattoo printing
Quickly print tattoo designs

Ink free printing
Mobile office assistant

1. Multiple printing modes: A4 regular printing, tattoo printing, label printing, etc.
2. Thermal printing technology replaces traditional inkjet printing.
3. Reduced the occurrence of ink cartridge replacement, ink cartridge blockage and printer malfunction.
4. The thermal printer uses V0 flame retardant grade ink-free and environmentally friendly high-quality materials and non-phenol A thermal paper, which can better protect safety, health and environmental protection. It is also affordable for babies, children and the elderly to use.
5. The machine comes with a roll of thermal paper. Just press the button and you can open the machine to check the usage of the paper. Installation is also very convenient. Children can also complete operations independently.
6. Low consumable cost, easy to carry, fully charged and can be printed anytime anywhere on mobile phones or computers.

Print anytime anywhere
